SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2024

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-38082

KKR Real Estate Finance Trust Inc.

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of incorporation or organization)

30 Hudson Yards, Suite 7500 New York, NY

(Address of principal executive offices)

47-2009094

(I.R.S. Employer Identification No.)

10001

(Zip Code)

(212) 750-8300

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, par value \$0.01 per share	KREF	New York Stock Exchange
6.50% Series A Cumulative Redeemable Preferred Stock, par value \$0.01 per share	KREF PRA	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the registrant's common stock, par value \$0.01 per share, outstanding as of April 19, 2024 was 69,313,860.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as "outlook," "believe," "expect," "potential," "continue," "may," "should," "seek," "approximately," "predict," "intend," "will," "plan," "estimate," "anticipate," the negative version of these words, other comparable words or other statements that do not relate strictly to historical or factual matters. By their nature, forward-looking statements speak only as of the date they are made, are not statements of historical fact or guarantees of future performance and are subject to risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify. Our expectations, beliefs and projections are expressed in good faith and we believe there is a reasonable basis for them. However, there can be no assurance that management's expectations, beliefs and projections will result or be achieved and actual results may vary materially from what is expressed in or indicated by the forward-looking statements.

There are many factors that may cause our actual results to differ materially from the forward-looking statements, including factors set forth under Part I, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 (the "Form 10-K") and Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-Q, as such factors may be updated from time to time in our other periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov and on the investor relations section of our website at www.kkrreit.com. You should evaluate all forward-looking statements made in this Form 10-Q in the context of these risks and uncertainties.

We caution you that the risks, uncertainties and other factors referenced below may not contain all of the risks, uncertainties and other factors that are important to you. In addition, we cannot assure you that we will realize the results, benefits or developments that we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our business in the way expected. All forward-looking statements in this Form 10-Q apply only as of the date made and are expressly qualified in their entirety by the cautionary statements included in this Form 10-Q and in other filings we make with the SEC. We undertake no obligation to publicly update or revise any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

Except where the context requires otherwise, the terms "Company," "we," "us," "our" and "KREF" refer to KKR Real Estate Finance Trust Inc., a Maryland corporation, and its subsidiaries; "Manager" refers to KKR Real Estate Finance Manager LLC, a Delaware limited liability company, our external manager; and "KKR" refers to KKR & Co. Inc., a Delaware corporation, and its subsidiaries.

SUMMARY OF MATERIAL RISKS

The following is a summary of the risk factors associated with investing in our securities. You should read this summary together with a more detailed description of these risks in the "Risk Factors" section of this report and in other filings that we make from time to time with the SEC.

- the general political, economic, competitive, and other conditions in the United States and in any foreign jurisdictions in which we invest and their impact on our loan portfolio, financial condition and business operations;
- fluctuations in interest rates and credit spreads could reduce our ability to generate income on our loans and other investments, which could lead to a significant decrease in our results of operations, cash flows and the market value of our investments and could materially impair our ability to pay distributions to our stockholders;
- adverse developments in the real estate and real estate capital markets could negatively impact our performance;
- adverse legislative or regulatory developments, including with respect to tax laws, securities laws, and the laws governing financial and lending institutions;
- adverse developments in the availability of attractive loan and other investment opportunities whether they are due to competition, regulation or otherwise, could adversely affect our results of operations;

- global economic trends and economic conditions, including heightened inflation, slower growth or recession, changes to fiscal and monetary policy, higher interest rates, labor shortages, currency fluctuations and challenges in global supply chains;
- events giving rise to increases in our current expected credit loss reserve;
- reduced demand for office, multifamily or retail space, including as a result of the COVID-19 pandemic and/or hybrid work schedules which allow work from remote locations other than the employer's office premises;
- our results of operations, financial condition, liquidity position, and business could be adversely affected if we experience (i) difficulty accessing financing or raising capital, including due to a significant dislocation in or shut-down of the capital markets, (ii) a reduction in the yield on our investments, (iii) an increase in the cost of our financing, (iv) an inability to borrow incremental amounts or an obligation to repay amounts under our financing arrangements, or (v) defaults by borrowers in paying debt service on outstanding loans;
- deterioration in the performance of the properties securing our investments that may cause deterioration in the performance of our investments, adversely impact certain of our financing arrangements and our liquidity, risks in collection of contractual interest payments, and potentially, principal losses to us;
- difficulty or delays in redeploying the proceeds from repayments of our existing investments may cause our financial performance to decline;
- acts of God such as hurricanes, earthquakes and other natural disasters, pandemics such as COVID-19, acts of war and/or terrorism and other events that may cause unanticipated and uninsured performance declines and/or losses to us or the owners and operators of the real estate securing our investments;
- increased competition from entities engaged in mortgage lending and/or investing in our target assets;
- conflicts with KKR and its affiliates, including our Manager, could result in decisions that are not in the best interests of our stockholders;
- we are dependent on our Manager and its access to KKR's investment professionals and resources. We may not find a suitable replacement for the Manager if the Management Agreement is terminated, or if key personnel leave the employment of KKR or otherwise become unavailable to us.
- our qualification as a real estate investment trust ("REIT") for U.S. federal income tax purposes and our exclusion from registration under the Investment Company Act of 1940, as amended (the "Investment Company Act"); and
- authoritative accounting principles generally accepted in the United States of America ("GAAP") or policy changes from such standard-setting bodies such as the Financial Accounting Standards Board (the "FASB"), the Securities and Exchange Commission (the "SEC"), the Internal Revenue Service, the New York Stock Exchange and other authorities that we are subject to, as well as their counterparts in any foreign jurisdictions where we might do business.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 1. Business and Organization

KKR Real Estate Finance Trust Inc. (together with its consolidated subsidiaries, referred to throughout this report as the "Company" or "KREF") is a Maryland corporation that was formed and commenced operations on October 2, 2014 as a mortgage real estate investment trust ("REIT") that focuses primarily on originating and acquiring transitional senior loans secured by commercial real estate ("CRE") assets.

KREF has elected and intends to maintain its qualification to be taxed as a REIT under the requirements of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), for U.S. federal income tax purposes. As such, KREF will generally not be subject to U.S. federal income tax on that portion of its income that it distributes to stockholders if it distributes at least 90% of its REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gains. See Note 16 regarding taxes applicable to KREF.

KREF is externally managed by KKR Real Estate Finance Manager LLC ("Manager"), an indirect subsidiary of KKR & Co. Inc. (together with its subsidiaries, "KKR"), through a management agreement ("Management Agreement") pursuant to which the Manager provides a management team and other professionals who are responsible for implementing KREF's business strategy, subject to the supervision of KREF's board of directors. For its services, the Manager is entitled to management fees and incentive compensation, both defined in, and in accordance with the terms of, the Management Agreement (Note 14).

As of March 31, 2024, KKR beneficially owned 10,000,001 shares, or 14.4% of KREF's outstanding common stock.

KREF's principal business activities are related to the origination and purchase of credit investments related to CRE. Management assesses the performance of KREF's current portfolio of leveraged and unleveraged commercial real estate loans and makes operating decisions accordingly. As a result, management presents KREF's operations within a single reporting segment.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 2. Summary of Significant Accounting Policies

Basis of Presentation — The accompanying unaudited condensed consolidated financial statements and related notes of KREF are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and instructions to Form 10-Q. The condensed consolidated financial statements, including the accompanying notes, are unaudited and exclude some of the disclosures required in annual financial statements. The condensed consolidated financial statements include the accounts of KREF and its consolidated subsidiaries, and all intercompany transactions and balances have been eliminated. In the opinion of management, all adjustments considered necessary for a fair presentation of KREF's financial position, results of operations and cash flows have been included and are of a normal and recurring nature. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. These condensed consolidated financial statements should be read in conjunction with KREF's Annual Report on Form 10-K.

Use of Estimates — The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Management makes subjective estimates to project cash flows KREF expects to receive on its investments in loans and securities as well as the related market discount rates, which significantly impact the interest income, impairments, allowance for loan loss and fair values recorded or disclosed. Actual results could materially differ from those estimates.

Consolidation — KREF consolidates those entities that (i) it controls through either majority ownership or voting rights or (ii) management determines that KREF is the primary beneficiary of entities deemed to be variable interest entities ("VIEs").

Variable Interest Entities — VIEs are entities (i) in which equity investors do not have an interest with the characteristics of a controlling financial interest, (ii) that do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties or (iii) established with non-substantive voting rights. A VIE is required to be consolidated only by its primary beneficiary, which is defined as the party that has the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and that has the obligation to absorb losses of, or the right to receive benefits from, the VIE that could be potentially significant to the VIE (Note 9).

To assess whether KREF has the power to direct the activities of a VIE that most significantly impact the VIE's economic performance, KREF considers all the facts and circumstances, including its role in establishing the VIE and its ongoing rights and responsibilities. This assessment includes, first, identifying the activities that most significantly impact the VIE's economic performance; and second, identifying which party, if any, has power to direct those activities. To assess whether KREF has the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE, KREF considers all of its economic interests and applies judgment in determining whether these interests, in the aggregate, are considered potentially significant to the VIE.

Collateralized Loan Obligations — KREF consolidates collateralized loan obligations ("CLOs") when it determines that the CLO issuers are VIEs and that KREF is the primary beneficiary of such VIEs.

The collateral assets of KREF's CLOs, comprised of a pool of loan participations, are included in "Commercial real estate loans, held-for-investment, net" on the Condensed Consolidated Balance Sheets. The liabilities of KREF's consolidated CLOs consist solely of obligations to the senior CLO noteholders, excluding subordinated CLO tranches held by KREF as such interests are eliminated in consolidation, and are presented in "Collateralized loan obligations, net" on the Condensed Consolidated Balance Sheets. The collateral assets of the CLOs can only be used to settle the obligations of the consolidated CLOs. The interest income from the CLOs' collateral assets and the interest expense on the CLOs' liabilities are presented on a gross basis in "Interest income" and "Interest expense", respectively, in KREF's Condensed Consolidated Statements of Income.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Real Estate Owned Joint Venture — KREF consolidates a joint venture that holds the majority of KREF's investment in a real estate owned ("REO") retail property that was acquired in 2021, in which a third party owns a 10% noncontrolling interest (Note 9). Management determined the joint venture to be a VIE as the joint venture had insufficient equity at risk. KREF owns 90% of the equity interest in the joint venture and participates in the profits and losses. Management concluded that KREF is the primary beneficiary of the joint venture as KREF holds decision-making power over the activities that most significantly impact the economic performance of the joint venture and has the obligation to absorb losses of, or the right to receive benefits from, the joint venture that could be potentially significant to the joint venture.

Noncontrolling Interests — Noncontrolling interests represent the ownership interests in certain consolidated subsidiaries held by entities or persons other than KREF. These noncontrolling interests do not include redemption features and are presented as "Noncontrolling interests in equity of consolidated joint venture" on the Condensed Consolidated Balance Sheets.

Equity Method Investments — Investments are accounted for under the equity method when KREF has significant influence over the operations of an investee but does not consolidate that investment. Equity method investments, for which management has not elected a fair value option, are initially recorded at cost and subsequently adjusted for KREF's share of net income or loss and cash contributions and distributions each period.

Management determined that KREF's investment in an aggregator vehicle alongside KKR Real Estate Credit Opportunity Partners L.P. ("RECOP I") is an interest in a VIE, however KREF is not the primary beneficiary and does not have substantive participating or kick-out rights. KREF records its share of net asset value in RECOP I in "Equity method investments" on its Condensed Consolidated Balance Sheets and its share of unrealized gains or losses in "Income (loss) from equity method investments" in its Condensed Consolidated Statements of Income. Management elected the fair value option for KREF's investment in RECOP I.

KREF classifies distributions received from equity method investees using the cumulative earnings approach. Distributions received up to the cumulative earnings from each equity method investee are considered returns on investment and presented within "Cash Flows from Operating Activities" in the Condensed Consolidated Statements of Cash Flows; excess distributions received are considered returns of investment and presented within "Cash Flows From Investing Activities" in the Condensed Consolidated Statements of Cash Flows.

Fair Value — GAAP requires the categorization of the fair value of financial instruments into three broad levels that form a hierarchy based on the transparency of inputs to the valuation.

Level 1 — Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 — Inputs are other than quoted prices that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, and inputs other than quoted prices that are observable for the asset or liability.

Level 3 — Inputs are unobservable for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

KREF follows this hierarchy for its financial instruments. The classifications are based on the lowest level of input that is significant to the fair value measurement.

Valuation Process — The Manager reviews the valuation of Level 3 financial instruments as part of KKR's quarterly process. As of March 31, 2024, KKR's valuation process for Level 3 measurements, as described below, subjected valuations to the review and oversight of various committees. KKR has a global valuation committee assisted by the asset class-specific valuation committees, including a real estate valuation committee that reviews and approves all preliminary Level 3 valuations for real estate assets, including the financial instruments held by KREF. The global valuation committee is responsible for coordinating and implementing KKR's valuation process to ensure consistency in the application of valuation principles across portfolio investments and between periods. All Level 3 valuations are also subject to approval by the global valuation committee.

Valuation of Commercial Real Estate Loans — Management considers KREF's commercial real estate loans to be Level 3 assets in the fair value hierarchy as such assets are illiquid, structured investments that are specific to the sponsor, underlying

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

property and its operating performance (Note 15). For financial statement disclosure purposes, on a quarterly basis, management generally engages an independent valuation firm to estimate the fair value of each loan categorized as a Level 3 asset. These loans are generally valued using a discounted cash flow model based on assumptions regarding the collection of principal and interest and estimated market rates. Management reviews the quarterly loan valuation estimates provided by the independent valuation firm. For collateral dependent loans, KREF may apply alternative valuation methods based on the fair value of the underlying collateral. Determination of collateral value involves significant judgment, including assumptions regarding capitalization rates, discount rates, leasing, occupancy rates, and other factors.

Valuation of CLO Consolidated VIEs — Management estimates the fair value of the CLO liabilities using prices obtained from an independent valuation firm. If prices received from the independent valuation firm are inconsistent with values determined in connection with management's independent review, management makes inquiries to the independent valuation firm about the prices received and related methods. In the event management determines the price obtained from an independent valuation firm to be unreliable or an inaccurate representation of the fair value of the CLO liabilities (based on considerations given to observable market data), management then compiles evidence independently and presents the independent valuation firm with such evidence supporting a different value. As a result, the independent valuation firm may revise their price after evaluating any additional evidence.

However, if management continues to disagree with the price from the independent valuation firm, in light of evidence that management compiled independently and believes to be compelling, valuations are then prepared using inputs based on non-binding broker quotes obtained from independent, well-known, major financial brokers that are CLO market makers. In validating any non-binding broker quote used in this circumstance, management compares the non-binding quote to the observable market data points in addition to understanding the valuation methodologies used by the market makers. These market participants may utilize a similar methodology as the independent valuation firm to value the CLO liabilities, with the key input of expected yield determined independently based on both observable and unobservable factors. To avoid reliance on any single broker-dealer, management receives a minimum of two non-binding quotes, of which the average is used.

Other Valuation Matters — For Level 3 financial assets originated, or otherwise acquired, and financial liabilities assumed during the current calendar quarter that were conducted in an orderly transaction with an unrelated party, management generally believes that the transaction price provides the most observable indication of fair value given the illiquid nature of these financial instruments, unless management is aware of any circumstances that may cause a material change in the fair value through the remainder of the reporting period. For instance, significant changes to the underlying property or its planned operations may cause material changes in the fair value of commercial real estate loans acquired, or originated, by KREF.

KREF's determination of fair value is based upon the best information available for a given circumstance and may incorporate assumptions that are management's best estimates after consideration of a variety of internal and external factors. When an independent valuation firm expresses an opinion on the fair value of a financial instrument in the form of a range, management selects a value within the range provided by the independent valuation firm, generally the midpoint, to assess the reasonableness of management's estimated fair value for that financial instrument.

See Note 15 for additional information regarding the valuation of KREF's financial assets and liabilities.

Sales of Financial Assets and Financing Agreements — KREF will, from time to time, transfer loans, securities and other assets as well as finance assets in the form of secured borrowings. In each case, management evaluates whether the transaction constitutes a sale through legal isolation of the transferred financial asset from KREF, the ability of the transferee to pledge or exchange the transferred asset without constraint and the transfer of control of the transferred asset. For transfers that constitute sales, KREF (i) recognizes the financial assets it retains and liabilities it has incurred, if any, (ii) derecognizes the financial assets it has sold, and derecognizes liabilities when extinguished and (iii) recognizes a realized gain, or loss, based upon the excess, or deficient, proceeds received over the carrying value of the transferred asset. KREF does not recognize a gain, or loss, on interests retained, if any, where management elected the fair value option prior to sale.

Balance Sheet Measurement

Cash and Cash Equivalents and Restricted Cash — KREF considers cash equivalents as highly liquid short-term investments with maturities of 90 days or less when purchased. KREF maintains its cash deposits with major financial institutions. Substantially all such amounts on deposit exceed insured limits.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

KREF must maintain sufficient cash and cash equivalents to satisfy liquidity covenants related to its secured financing agreements. However, such amounts are not restricted from use in KREF's current operations, and KREF does not present these cash and cash equivalents as restricted. As of March 31, 2024 and December 31, 2023, KREF was required to maintain unrestricted cash and cash equivalents of at least \$56.5 million and \$60.2 million, respectively, to satisfy its liquidity covenants (Note 5).

As of March 31, 2024 and December 31, 2023, KREF had \$12.3 million and \$12.4 million of restricted cash held in lender-controlled bank accounts, respectively. Such amounts are presented within "Other Assets" in the Condensed Consolidated Balance Sheets (Note 8).

Commercial Real Estate Loans Held-For-Investment and Allowance for Credit Losses — KREF recognizes its investments in commercial real estate loans based on management's intent, and KREF's ability, to hold those investments through their contractual maturity. Management classifies those loans that management does not intend to sell in the foreseeable future, and KREF is able to hold until maturity, as held-for-investment. Loans that are held-for-investment are carried at their aggregate outstanding principal, net of applicable (i) unamortized origination or acquisition premiums and discounts, (ii) unamortized deferred nonrefundable fees and other direct loan origination costs, and (iii) allowance for credit losses, net of write-offs of impaired loans. If a loan is determined to be impaired, management writes off the loan through a charge to the "Allowance for credit losses" and to the respective loan balance. KREF applies the interest method to amortize origination or acquisition premiums and discounts and deferred nonrefundable fees or other direct loan origination costs, or on a straight-line basis when it approximates the interest method. Loans for which management elects the fair value option at the time of origination, or acquisition, are carried at fair value on a recurring basis (Note 3).

KREF recognizes and measures the allowance for credit losses under the Current Expected Credit Loss ("CECL") model which amended the previous credit loss model to reflect a reporting entity's current estimate of all expected credit losses, not only based on historical experience and current conditions, but also by including reasonable and supportable forecasts incorporating forward-looking information. The measurement of expected credit losses under CECL is applicable to financial assets measured at amortized cost, and off-balance sheet credit exposures such as unfunded loan commitments. The allowance for credit losses required under ASU 2016-13 is deducted from the respective loans' amortized cost basis on KREF's Condensed Consolidated Balance Sheets. The allowance for credit losses attributed to unfunded loan commitments is included in "Other liabilities" on the Condensed Consolidated Balance Sheets (Note 8).

KREF has implemented loan loss forecasting models for estimating expected life-time credit losses, at the individual loan level, for its commercial real estate loan portfolio. The CECL forecasting methods used by KREF include (i) a probability of default and loss given default method using an underlying third-party CMBS/CRE loan database with historical loan losses from 1998 through 2024 and (ii) a probability weighted expected cash flow method, depending on the type of loan and the availability of relevant historical market loan loss data. KREF might use other acceptable alternative approaches in the future depending on, among other factors, the type of loan, underlying collateral and availability of relevant historical market loan loss data.

KREF estimates the CECL allowance for its loan portfolio, including unfunded loan commitments, at the individual loan level. Significant inputs to KREF's forecasting methods include (i) key loan-specific inputs such as vintage year, loan term, underlying property type, geographic location, most recent appraisal, and expected timing and amount of future loan fundings, (ii) performance against the underwritten business plan and KREF's internal loan risk rating and (iii) a macro-economic forecast. These estimates may change in future periods based on available future macro-economic data and might result in a material change in KREF's future estimates of expected credit losses for its loan portfolio. KREF considers the individual loan internal risk rating as the key credit quality indicator in assessing the CECL allowance. KREF may also consider relevant loan-specific qualitative factors for certain loans.

For collateral dependent loans for which KREF determines foreclosure of the collateral is probable, KREF measures the expected losses based on the difference between the fair value of the collateral and the amortized cost basis of the loan as of the measurement date. For collateral dependent loans for which KREF determines foreclosure is not probable, KREF applies a practical expedient to estimate expected losses using the difference between the collateral's fair value (less costs to sell the asset if repayment is expected through the sale of the collateral) and the amortized cost basis of the loan. A loan is determined to be collateral dependent if (i) a borrower or sponsor is experiencing financial difficulty, and (ii) the loan is expected to be substantially repaid through the sale of the underlying collateral. Such determination requires the use of significant judgment and can be based on several factors subject to uncertainty. Considerations used in determination of financial difficulty may include, but are not limited to, whether the borrower's operating cash flow is sufficient to cover the current and future debt

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

service requirements, the borrower's ability to refinance the loan, market liquidity and other circumstances that can affect the borrower's ability to satisfy its contractual obligations under the loan agreement.

See "*Expense Recognition — Commercial Real Estate Loans, Held-For-Investment*" for additional discussion regarding management's determination for loan losses.

Commercial Real Estate Loans Held-For-Sale — Loans that KREF originates or acquires, which KREF is unable to hold, or management intends to sell or otherwise dispose of, in the foreseeable future are classified as held-for-sale and are carried at the lower of amortized cost or fair value.

Real Estate Owned — To maximize recovery from a defaulted loan, KREF may assume legal title or physical possession of the underlying collateral through foreclosure or the execution of a deed in lieu of foreclosure. Foreclosed properties are initially recognized at fair value in accordance with ASC 805 on KREF's Condensed Consolidated Balance Sheets as "Real Estate Owned" when KREF assumes either legal title or physical possession. KREF's cost basis in REO equals the estimated fair value on the acquisition date. The value of acquired REO is allocated based on the relative fair values of assets acquired and liabilities assumed, including, but not limited to, land, building, furniture and fixtures, and intangibles.

REO assets held for investment, except for land, are depreciated using the straight-line method over estimated useful lives. Renovations and/or replacements that improve or extend the life of the REO asset are capitalized and depreciated over their estimated useful lives. The cost of ordinary repairs and maintenance are expensed as incurred.

REO assets held for investment are evaluated for impairment on a quarterly basis. KREF considers the following factors when performing the impairment analysis: (i) significant underperformance relative to anticipated operating results; (ii) significant negative industry and economic outlook or trends; (iii) expected material costs necessary to extend the life or operate the REO asset; and (iv) KREF's ability to hold and dispose of the REO asset in the ordinary course of business. A REO asset is considered for impairment when the sum of estimated future undiscounted cash flows to be generated by the REO asset over the estimated remaining holding period is less than the carrying value of such REO asset. An impairment charge is recorded when the carrying value of the REO exceeds the fair value. When determining the fair value of a REO asset, KREF makes certain assumptions including, but not limited to, projected operating cash flows, comparable selling prices and projected cash flows from the eventual disposition of the REO asset.

REO assets are classified as held for sale in the period when they meet the criteria under ASC 360. Once a REO is classified as held for sale, depreciation is suspended and the asset is reported at the lower of its carrying value or fair value less cost to sell. The actual sales price of the REO could differ from the estimated fair value. If circumstances arise that were previously considered unlikely and, as a result, KREF decides not to sell the real estate asset previously classified as held for sale, the real estate asset is reclassified as held for investment. Upon reclassification, the real estate asset is measured at the lower of (i) its carrying amount prior to classification as held for sale, adjusted for depreciation expense that would have been recognized had the real estate been classified as held for investment, and (ii) its estimated fair value at the time of reclassification.

For all REO assets (Note 4), KREF may opportunistically transact as suitable opportunities emerge.

Secured Financing Agreements — KREF's secured financing agreements, including uncommitted repurchase facilities, term lending agreements, warehouse facility, asset specific financings and term loan facility, are treated as floating-rate collateralized financing arrangements carried at their contractual amounts, net of unamortized debt issuance costs (Note 5). Included within KREF's secured financing agreements is KREF's corporate revolving credit agreement ("Revolver"), which is full recourse to certain guarantor wholly-owned subsidiaries of KREF.

Secured Term Loan, Net — KREF records its secured term loan at its contractual amount, net of unamortized original issuance discount and deferred financing costs (Note 7) on its Condensed Consolidated Balance Sheets. Any original issuance discount or deferred financing costs are amortized through the maturity date of the secured term loan as additional non-cash interest expense.

Dividends Payable — KREF records dividends payable on its common stock and preferred stock upon declaration of such dividends. In February 2024, KREF's board of directors declared a dividend of \$0.25 per share of common stock to stockholders of record as of March 28, 2024, which was accrued in "Dividends payable" on KREF's Condensed Consolidated Balance Sheets as of March 31, 2024 and was subsequently paid on April 15, 2024. In February 2024, KREF's board of directors declared a dividend of \$0.41 per each issued and outstanding share of the Company's 6.50% Series A Cumulative

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Redeemable Preferred Stock, which represents an annual dividend of \$1.625 per share. The dividend was paid on March 15, 2024 to KREF's preferred stockholders of record as of February 29, 2024.

Repurchased Stock — KREF accounts for repurchases of its common stock based on the settlement date and presents repurchased stock in "Repurchased stock" on its Condensed Consolidated Balance Sheets (Note 10). Payments for stock repurchases that are not yet settled as of the reporting date are presented within "Other assets" on the Condensed Consolidated Balance Sheets. As of March 31, 2024, KREF had not retired any repurchased stock.

Income Recognition

Interest Income — KREF accrues interest income on loans based on the outstanding principal amount and contractual terms of the loan. Interest income also includes origination fees, direct loan origination costs and related exit fees for loans that KREF originates, but where management did not elect the fair value option, as a yield adjustment using the interest method over the loan term, or on a straight line basis when it approximates the interest method. KREF expenses origination fees and direct loan origination costs for loans acquired, but not originated, by KREF as well as loans for which management elected the fair value option, as incurred.

Revenue from Real Estate Owned Operations — Revenue from REO operations is primarily comprised of rental income, including base rent and reimbursements of property operating expenses. For leases that have fixed and measurable base rent escalations, KREF recognizes base rent on a straight-line basis over the non-cancelable lease terms. The difference between such rental income earned and the cash rent amount is recorded as straight-line rent receivable and presented within "Other assets" on the Condensed Consolidated Balance Sheets. Reimbursement of property operating expenses arises from tenant leases which provide for the recovery of certain operating expenses and real estate taxes of the respective property. This revenue is accrued in the same periods as the expenses are incurred. Rental income is presented within "Revenue from real estate owned operations" in the Condensed Consolidated Statements of Income.

Other Income — KREF recognizes interest income earned on its cash balances and miscellaneous fee income in "Other miscellaneous income" on its Condensed Consolidated Statements of Income.

Realized Gain (Loss) on Sale of Investments — KREF recognizes the excess, or deficiency, of net proceeds received, less the net carrying value of such investments, as realized gains or losses, respectively. KREF reverses cumulative, unrealized gains or losses previously reported in its Condensed Consolidated Statements of Income with respect to the investment sold at the time of sale.

Expense Recognition

Commercial Real Estate Loans, Held-For-Investment — For each loan in KREF's portfolio, management performs an evaluation, at least quarterly, of credit quality indicators of loans classified as held-for-investment using applicable loan, property, market and sponsor information obtained from borrowers, loan servicers and local market participants. Such indicators may include the net present value of the underlying collateral, property operating cash flows, the sponsor's financial wherewithal and competency in managing the property, macroeconomic trends, and property submarket—specific economic factors. The evaluation of these credit quality indicators requires significant judgment by management to determine whether failure to collect contractual amounts is probable.

If management deems that it is probable that KREF will be unable to collect all amounts owed according to the contractual terms of a loan, deterioration in credit quality of that loan is indicated. Management evaluates all available facts and circumstances that might impact KREF's ability to collect outstanding loan balances when determining loan write-offs. These facts and circumstances may vary and may include, but are not limited to, (i) the underlying collateral performance and/or value, (ii) communications with the borrower, (iii) compliance with debt covenants, (iv) events of default by the borrower, or (v) other facts that impact the borrower's ability to pay the contractual amounts due under the terms of the loan.

If management considers a loan to be impaired, management writes off the loan through a charge to "Allowance for credit losses" based on the present value of expected future cash flows discounted at the loan's contractual effective rate or the fair value of the collateral, if repayment is expected solely from the collateral. Significant judgment is required in determining impairment and in estimating the resulting credit loss allowance, and actual losses, if any, could materially differ from those estimates.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Loans are placed on nonaccrual status when principal or interest is 90 days or more past due unless the loan is both well secured and in the process of collection, or when repayment of interest and principal is, in management's judgment, in doubt. Interest received on loans placed on nonaccrual status may be accounted for under the cost-recovery method under certain circumstances, whereby interest collected on a loan is a reduction to its amortized cost. Management may return a loan to accrual status when repayment of principal and interest is reasonably assured.

In certain circumstances, KREF may also modify terms of a loan agreement to accommodate a borrower experiencing financial difficulty. Such modifications typically include interest rate reductions, payment extension and modification of loan covenants.

In conjunction with reviewing commercial real estate loans held-for-investment for impairment, KREF evaluates its commercial real estate loans at least once per quarter, assesses the risk factors of each loan, and assigns a risk rating based on a variety of factors, including, without limitation, underlying real estate performance, values of comparable properties, durability and quality of property cash flows, sponsor experience and financial wherewithal, and the existence of a risk-mitigating loan structure. Additional key considerations include debt service coverage ratios, loan structure, real estate and credit market dynamics, and risk of default or principal loss. Based on a five-point scale, KREF's loans are rated "1" through "5," from less risk to greater risk, which ratings are defined as follows: 1 (Very Low Risk); 2 (Low Risk); 3 (Medium Risk); 4 (High Risk/Potential for Loss); and 5 (Impaired/Loss Likely).

Commercial Real Estate Loans, Held-For-Sale — For commercial real estate loans held-for-sale, KREF applies the lower of cost or fair value accounting and may be required, from time to time, to record a nonrecurring fair value adjustment.

Accrued Interest Receivables — KREF elected not to measure an allowance for credit losses for accrued interest receivables. KREF generally writes off an accrued interest receivable balance when interest is 90 days or more past due unless the loan is both well secured and in the process of collection. Write-offs of accrued interest receivable are recognized as "Provision for (reversal of) credit losses, net" in the Condensed Consolidated Statements of Income.

Tenant Receivables — KREF periodically reviews its REO tenant receivables for collectability, taking into consideration changes in factors such as the tenant's payment history, the financial condition of the tenant, business conditions in the industry in which the tenant operates and economic conditions in the area where the property is located. Tenant receivables, including receivables arising from the straight-lining of rents, are written-off directly when management deems that the collectability of substantially all future lease payments from a specified lease is not probable, at which point, KREF will begin recognizing revenue on a cash basis, based on actual amounts received. (Note 4) Any receivables that are deemed to be uncollectible are recognized as a reduction to "Revenue from real estate owned operations" in the Condensed Consolidated Statements of Income.

Interest Expense — KREF expenses contractual interest due in accordance with KREF's financing agreements as incurred.

Deferred Debt Issuance Costs — KREF capitalizes and amortizes deferred financing costs incurred in connection with financing arrangements over their respective expected term using the interest method, or on a straight line basis when it approximates the interest method. KREF presents such expensed amounts, as well as deferred amounts written off, as additional interest expense in its Condensed Consolidated Statements of Income.

General and Administrative Expenses — KREF expenses general and administrative costs, including legal and audit fees, insurance premiums, and other costs as incurred.

Management and Incentive Compensation to Affiliate — KREF expenses management fees and incentive compensation earned by the Manager on a quarterly basis in accordance with the Management Agreement (Note 14).

Income Taxes — Certain activities of KREF are conducted through joint ventures that are formed as limited liability companies, taxed as partnerships, and consolidated by KREF. Some of these joint ventures are subject to state and local income taxes, based on the tax jurisdictions in which they operate. In addition, certain activities of KREF are conducted through taxable REIT subsidiaries consolidated by KREF. Taxable REIT subsidiaries are subject to federal, state and local income taxes (Note 16).

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

As of March 31, 2024 and December 31, 2023, KREF did not have any material deferred tax assets or liabilities arising from future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in accordance with GAAP and their respective tax bases.

KREF recognizes tax benefits for uncertain tax positions only if it is more likely than not that the position is sustainable based on its technical merits. Interest and penalties on uncertain tax positions are included as a component of the provision for income taxes in KREF's Condensed Consolidated Statements of Income. As of March 31, 2024, KREF did not have any material uncertain tax positions.

Stock-Based Compensation

KREF's stock-based compensation consists of awards issued to employees of the Manager or its affiliates that vest over the life of the awards, as well as restricted stock units issued to certain members of KREF's board of directors. KREF recognizes the compensation cost of stock-based awards to its directors and employees of the Manager or its affiliates on a straight-line basis over the awards' term at their grant date fair value. Certain stock-based awards are entitled to nonforfeitable dividends, at the same rate as those declared on the common stock, during the vesting period. Such nonforfeitable dividends are deducted from "Retained earnings (Accumulated deficit)" in the condensed consolidated financial statements. KREF accounts for forfeitures as they occur. Refer to Note 11 for additional information.

Earnings per Share

KREF calculates basic earnings per share ("EPS") using the two-class method, which defines unvested share-based payment awards that contain nonforfeitable rights to dividends as participating securities. The two-class method is an allocation formula that determines earnings per share for each share of common stock and participating securities according to dividends declared and participation rights in undistributed earnings. Under this method, all earnings (distributed and undistributed) are allocated to common shares and participating securities based on their respective rights. Basic EPS, is calculated by dividing net income (loss) attributable to common stockholders by the weighted average number of common stock outstanding for the period.

KREF presents diluted EPS under the more dilutive of the treasury stock and if-converted methods or the two-class method. Under the treasury stock and if-converted methods, the denominator includes weighted average common stock outstanding plus the incremental dilutive shares issuable from restricted stock units and an assumed conversion of convertible instruments. The numerator includes any changes in income (loss) attributable to common stockholders that would result from the assumed conversion of these potential shares of common stock. Refer to Note 12 for additional discussion of earnings per share.

Recent Accounting Pronouncements

In 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires a public entity to disclose significant segment expenses and other segment items on an annual and interim basis and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. Public entities with a single reportable segment are required to provide the new disclosures and all the disclosures required under ASC 280. The guidance is effective for KREF in its 2024 annual reporting. The guidance is applied retrospectively to all periods presented in the financial statements, unless it is impracticable. KREF is evaluating the impact of ASU 2023-07.

Note 3. Commercial Real Estate Loans

The following table summarizes KREF's investments in commercial real estate loans as of March 31, 2024 and December 31, 2023:

Loan Type	Outstanding Principal	Amortized Cost ^(A)	Carrying Value ^(B)	Loan Count	Weighted Average ^(C)		
					Floating Rate Loan %	Coupon ^(D)	Life (Years) ^(E)
March 31, 2024							
Loans held-for-investment ^(F)							
Senior loans ^(G)	\$ 7,092,599	\$ 7,068,558	\$ 6,854,924	65	98.9 %	8.7 %	2.5
Mezzanine loans	44,667	44,698	14,698	2	100.0	18.3	1.8
Total/Weighted Average	<u>\$ 7,137,266</u>	<u>\$ 7,113,256</u>	<u>\$ 6,869,622</u>	<u>67</u>	<u>98.9 %</u>	<u>8.7 %</u>	<u>2.5</u>
December 31, 2023							
Loans held-for-investment ^(F)							
Senior loans ^(G)	\$ 7,324,758	\$ 7,298,844	\$ 7,089,930	67	98.9 %	8.7 %	2.7
Mezzanine loans	44,667	44,704	43,148	2	100.0	14.1	2.1
Total/Weighted Average	<u>\$ 7,369,425</u>	<u>\$ 7,343,548</u>	<u>\$ 7,133,078</u>	<u>69</u>	<u>98.9 %</u>	<u>8.7 %</u>	<u>2.7</u>

- (A) Amortized cost represents the outstanding principal of loan, net of applicable unamortized discounts, loan origination fees, cost recovery interest and write-offs on uncollectible loan balances.
- (B) Carrying value represents the amortized cost of loan, net of applicable allowance for credit losses.
- (C) Average weighted by outstanding loan principal.
- (D) Weighted average coupon assumes the greater of applicable index rate, or the applicable contractual rate floor. Excludes loans accounted for under the cost recovery method.
- (E) The weighted average life assumes all extension options are exercised by the borrowers.
- (F) Excludes fully written off risk-rated 5 loans.
- (G) Senior loans may include accommodation mezzanine loans in connection with the senior mortgage financing.

Activity — For the three months ended March 31, 2024, the loan portfolio activity was as follows:

	Amortized Cost	Allowance for Credit Losses	Carrying Value
Balance at December 31, 2023	\$ 7,343,548	\$ (210,470)	\$ 7,133,078
Originations and future fundings, net ^{(A)(B)}	103,139	—	103,139
Proceeds from loan repayments and cost recovery interest ^(C)	(338,180)	—	(338,180)
Accretion of loan discount and other amortization, net	4,724	—	4,724
Payment-in-kind interest	25	—	25
(Provision for) Reversal of credit losses	—	(33,164)	(33,164)
Balance at March 31, 2024	<u>\$ 7,113,256</u>	<u>\$ (243,634)</u>	<u>\$ 6,869,622</u>

- (A) Net of applicable premiums, discounts and deferred loan origination costs. Includes fundings on previously originated loans.
- (B) Includes \$7.3 million of loan funding held in escrow.
- (C) Includes \$2.5 million of cost recovery interest collections applied as a reduction to loan amortized cost during the three months ended March 31, 2024.

As of March 31, 2024 and December 31, 2023, there was \$16.4 million and \$20.8 million, respectively, of unamortized origination discounts and deferred fees included in "Commercial real estate loans, held-for-investment, net" on the Condensed Consolidated Balance Sheets. During the three months ended March 31, 2024, KREF recognized no prepayment fee income or net accelerated fee income, relating to loan repayments. During the three months ended March 31, 2023, KREF recognized prepayment fee income of \$0.4 million and net accelerated fee income of \$0.3 million.

KREF may enter into loan modifications that include, among other changes, incremental capital contributions or partial repayments from certain borrowers, repurposing of reserves, and a temporary partial deferral for a portion of the coupon as payment-in-kind interest ("PIK Interest") due, which is capitalized, compounded, and added to the outstanding principal balance of the respective loans.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

In January 2023, KREF modified a risk-rated 5 senior office loan located in Philadelphia, PA, with an outstanding principal balance of \$161.0 million. The terms of the modification included, among others, a \$25.0 million principal repayment and a restructure of the \$136.0 million senior loan (after the \$25.0 million repayment) into (i) a \$116.5 million committed senior mortgage loan (with \$5.5 million in unfunded commitment) and (ii) a \$25.0 million junior mezzanine note. The restructured senior loan earns a coupon rate of S+2.75% and has a new term of up to four years, assuming all extension options are exercised. The \$25.0 million junior mezzanine note is subordinate to a new \$41.5 million committed senior mezzanine note held by the sponsor (with \$16.5 million in unfunded commitment) and was deemed uncollectible and written off in December 2022. The loan modification was accounted for as a new loan for GAAP purposes. The restructured senior loan with an outstanding principal balance of \$114.3 million was risk-rated 3 as of March 31, 2024.

In June 2023, KREF modified a risk-rated 5 senior office loan located in Minneapolis, MN, with an outstanding principal balance of \$194.4 million. The terms of the modification included, among others, a restructure of the \$194.4 million senior loan into (i) a \$120.0 million senior mortgage loan (fully funded) and (ii) a \$79.4 million mezzanine note (with \$5.0 million in unfunded commitment). The restructured senior loan earns a coupon rate of S+2.25% and the mezzanine note earns a fixed 4.5% PIK interest rate. Post modification, the whole loan's maximum maturity is July 2025, assuming all extension options are exercised. The restructured whole loan with an outstanding principal balance of \$194.4 million was risk-rated 5 as of March 31, 2024.

In September 2023, KREF modified a risk-rated 4 senior office loan located in Chicago, IL, with an outstanding principal balance of \$118.4 million. The terms of the modification included, among others, a \$15.0 million principal repayment, a \$15.0 million reduction in unfunded loan commitment, and a restructure of the \$103.4 million senior loan (after the \$15.0 million repayment) into (i) a \$105.0 million committed senior mortgage loan (with \$16.6 million in unfunded commitment) and (ii) a \$15.0 million subordinated note. The restructured senior loan earns a coupon rate of S+2.25% and has a new term of five years. The \$15.0 million subordinated note is subordinate to a new \$18.5 million sponsor interest and was deemed uncollectible and written off. The loan modification was accounted for as a new loan for GAAP purposes. The restructured senior loan with an outstanding principal balance of \$88.4 million was risk-rated 3 as of March 31, 2024.

Loan Risk Ratings — As further described in Note 2, KREF evaluates its commercial real estate loan portfolio at least once per quarter. In conjunction with its commercial real estate loan portfolio review, KREF assesses the risk factors of each loan and assigns a risk rating based on a variety of factors. Loans are rated “1” (Very Low Risk) through “5” (Impaired/Loss Likely), which ratings are defined in Note 2.

The following tables summarize the carrying value of the loan portfolio based on KREF's internal risk ratings:

Risk Rating	March 31, 2024				December 31, 2023			
	Number of Loans ^(A)	Carrying Value	Total Loan Exposure ^(B)	Total Loan Exposure %	Number of Loans ^(A)	Carrying Value	Total Loan Exposure ^(B)	Total Loan Exposure %
1	—	\$ —	\$ —	— %	—	\$ —	\$ —	— %

Allowance for credit losses		(243,634)				(210,470)		
Loan receivable, net		\$ 6,869,622				\$ 7,133,078		

* Numbers presented may not foot due to rounding.

(A) Excludes fully written off risk-rated 5 loans.

(B) In certain instances, KREF finances its loans through the non-recourse sale of a senior interest that is not included in the condensed consolidated financial statements. Total loan exposure includes the entire loan KREF originated and financed, including \$188.6 million of such non-consolidated interests as of March 31, 2024 and December 31, 2023.

As of March 31, 2024, the average risk rating of KREF's portfolio was 3.2, weighted by total loan exposure, consistent with that as of December 31, 2023.

(B) Excludes fully written off risk-rated 5 loans.

Allowance for Credit Losses — The following tables present the changes to the allowance for credit losses for the three months ended March 31, 2024 and 2023, respectively:

	Commercial Real Estate Loans	Unfunded Loan Commitments	Total
Balance at December 31, 2023	\$ 210,470	\$ 2,052	\$ 212,522
Provision for (reversal of) credit losses, net	33,164	102	33,266
Balance at March 31, 2024	<u>\$ 243,634</u>	<u>\$ 2,154</u>	<u>\$ 245,788</u>
	Commercial Real Estate Loans	Unfunded Loan Commitments	Total
Balance at December 31, 2022	\$ 106,974	\$ 4,138	\$ 111,112
Provision for (reversal of) credit losses, net	60,386	81	60,467
Balance at March 31, 2023	<u>\$ 167,360</u>	<u>\$ 4,219</u>	<u>\$ 171,579</u>

As of March 31, 2024, the allowance for credit losses was \$245.8 million. The CECL provision of \$33.3 million for the three months ended March 31, 2024 was primarily due to additional reserves on risk-rated 5 senior loans predominantly in the office sector, as well as macroeconomic conditions.

KREF had a risk-rated 5 senior office loan located in Mountain View, CA, originated in July 2021. The property is located in a challenged leasing market. As of March 31, 2024, the loan had an outstanding principal balance of \$200.9 million, an unfunded commitment of \$49.1 million and an amortized cost of \$198.9 million. This loan's maximum maturity is August 2026, assuming all extension options are exercised. Since June 2023, the loan has been on nonaccrual status and subsequent interest

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

collections are accounted for under the cost recovery method. During the three months ended March 31, 2024, no interest income was received on this loan.

KREF had a risk-rated 5 senior office loan located in Minneapolis, MN, originated in November 2017. The property is located in a challenged leasing market. As of March 31, 2024, the loan had an outstanding principal balance of \$194.4 million, an unfunded commitment of \$5.0 million and an amortized cost of \$190.1 million. In June 2023, KREF restructured the \$194.4 million senior loan into (i) a \$120.0 million senior mortgage loan (fully funded) and (ii) a \$79.4 million mezzanine note (with \$5.0 million in unfunded commitment). The restructured senior loan earns a coupon rate of S+2.25% and the mezzanine note earns a fixed 4.5% PIK interest rate. Post modification, the whole loan's maximum maturity is July 2025, assuming all extension options are exercised. Since June 2023, the senior loan has been on nonaccrual status. During the three months ended March 31, 2024, KREF recognized \$2.3 million of interest income on this loan.

KREF had a risk-rated 5 senior life science loan located in Seattle, WA, originated in October 2021. The property is located in a challenged leasing market. As of March 31, 2024, the loan had an outstanding principal balance of \$117.1 million, an unfunded commitment of \$23.2 million and an amortized cost of \$114.2 million. The loan's maximum maturity is October 2026, assuming all extension options are exercised. Since December 2023, this loan has been on nonaccrual status and subsequent interest collections are accounted for under the cost recovery method. During the three months ended March 31, 2024, \$2.5 million of contractual interest payments were received and applied as a reduction to this loan's amortized cost.

KREF had a risk-rated 5 mezzanine office loan located in Boston, MA, originated in February 2021. The property is located in a market with weakened office leasing activity. As of March 31, 2024, the loan had an outstanding principal balance and amortized cost of \$37.5 million. The loan's maximum maturity is February 2026, assuming all extension options are exercised. In March 2024, this loan was placed on nonaccrual status and subsequent interest collections are accounted for under the cost recovery method. During the three months ended March 31, 2024, KREF recognized \$0.1 million of interest income on this loan.

The 5-rated loans were determined to be collateral dependent as of March 31, 2024. KREF estimated expected losses based on each loan's collateral fair value, which was determined by applying a capitalization rate between 7.0% and 9.0% and a discount rate between 9.0% and 12.0%, respectively.

As of March 31, 2023, the allowance for credit losses was \$171.6 million. The CECL provision of \$60.5 million for the three months ended March 31, 2023 was primarily due to increased uncertainty in the macroeconomic outlook, as well as volatility and reduced liquidity in the office sector.

Note 4. Real Estate Owned

As of March 31, 2024, REO assets and liabilities consisted of a retail property in Portland, OR and an office portfolio in Philadelphia, PA.

Portland Retail — In 2015, KREF originated a \$177.0 million senior loan secured by a retail property in Portland, OR. In December 2021, KREF took title to the retail property. The transaction was accounted for as an asset acquisition under ASC 805. Accordingly, KREF recognized the property on the Condensed Consolidated Balance Sheet as REO with a carrying value of \$78.6 million, which included the estimated fair value of the property.

Concurrently with taking title to the REO, KREF contributed a portion of the REO asset with a carrying value of \$68.9 million to a joint venture (the "REO JV") with a third party local developer operator ("JV Partner"), whereby KREF has a 90% interest and the JV Partner has a 10% interest. In September 2023, the REO JV submitted a conceptual master plan to the City of Portland's Bureau of Development Services in an application for a Design Advice Request (DAR) meeting with the City's Design Commission.

Philadelphia Office — In 2019, KREF originated a \$182.6 million senior loan secured by an office portfolio in Philadelphia, PA. As of September 30, 2023, the loan had a risk rating of 5 with an amortized cost of \$151.1 million. On December 22, 2023, KREF received a \$6.0 million partial repayment and then took title to the office property through a deed-in-lieu of foreclosure. The transaction was accounted for as an asset acquisition under ASC 805. Accordingly, KREF recorded the portfolio with its net assets on the Condensed Consolidated Balance Sheet with an estimated fair value of \$86.4 million, which included \$1.3 million of cash received and \$76.5 million, \$24.6 million and \$15.9 million allocated to REO held for sale, lease intangible and other assets, and leasing and other liabilities, respectively. As a result, KREF recognized a \$58.7 million loan write-off for the difference between the carrying value of the foreclosed loan and the fair value of the REO's net assets. As of March 31, 2024, the REO's assets and liabilities met the criteria to be classified as held for sale under ASC 360. As such, depreciation and amortization on the REO and related lease intangibles were suspended.

KREF assumed certain legacy lease arrangements upon the acquisition of the REO assets and entered into lease arrangements during the hold period. These arrangements entitle KREF to receive contractual rent payments during the lease periods and tenant reimbursements for certain property operating expenses, including common area costs, insurance, utilities and real estate taxes. KREF elects the practical expedient to not separate the lease and non-lease components of the rent payments and accounts for these lease arrangements as operating leases.

- (A) Final Stated Maturity is determined based on the maximum maturity of the underlying financing agreements or corresponding loans, assuming all extension options in KREF's discretion are exercised. The weighted average life of the match-term facilities was 1.1 and 2.8 years, based on the current and final stated maturities, respectively, of the average weighted outstanding principal of collateral loans as of March 31, 2024.
- (B) Net of \$9.8 million and \$11.6 million unamortized deferred financing costs as of March 31, 2024 and December 31, 2023, respectively.
- (C) Including deferred financing costs and applicable index in effect as of March 31, 2024. Average weighted by the outstanding principal of the facility.
- (D) Borrowings under these repurchase agreements are collateralized by senior loans, held-for-investment, and bear interest equal to the sum of (i) Term SOFR, and (ii) a financing spread. As of March 31, 2024 and December 31, 2023, the percentage of the outstanding principal of the collateral sold and not borrowed under these repurchase agreements, or average "haircut" weighted by outstanding principal of collateral, was 33.8% and 33.8%, respectively (or 31.2% and 32.2%, respectively, if KREF had borrowed the maximum amount approved by its repurchase agreement counterparties as of such dates).
- (E) The term loan facility provides asset-based financing on a non-mark-to-market basis with match-term up to five years, with additional two-year extension available to KREF.
- (F) As of March 31, 2024, the revolver carrying value excluded \$3.6 million unamortized debt issuance costs presented within "Other assets" on KREF's Condensed Consolidated Balance Sheets.

As of March 31, 2024 and December 31, 2023, KREF had outstanding repurchase agreements and term lending agreements where the amount at risk with any individual counterparty, or group of related counterparties, exceeded 10.0% of KREF's stockholders' equity. The amount at risk under these agreements is the net counterparty exposure, defined as the excess of the carrying amount (or market value, if higher than the carrying amount, for repurchase agreements) of the assets sold under agreement to repurchase, including accrued interest plus any cash or other assets on deposit to secure the repurchase obligation, over the amount of the repurchase liability, adjusted for accrued interest.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

The following table summarizes certain characteristics of KREF's repurchase agreements where the amount at risk with any individual counterparty, or group of related counterparties, exceeded 10.0% of KREF's stockholders' equity as of March 31, 2024 and December 31, 2023:

	Outstanding Principal	Net Counterparty Exposure	Percent of Stockholders' Equity	Weighted Average Life (Years) ^(A)
March 31, 2024				
Wells Fargo	\$ 617,344	\$ 254,636	18.4 %	2.5
KREF Lending IX	692,605	178,338	12.9	2.9
Goldman Sachs	330,379	177,149	12.8	2.6
Total / Weighted Average	<u>\$ 1,640,328</u>	<u>\$ 610,123</u>	<u>44.1 %</u>	<u>2.7</u>
December 31, 2023				
Wells Fargo	\$ 646,559	\$ 248,891	17.7 %	2.7
Morgan Stanley	483,339	203,080	14.5	1.6
KREF Lending IX	696,605	172,462	12.3	3.1
Goldman Sachs	347,329	170,236	12.1	2.9
Total / Weighted Average	<u>\$ 2,173,832</u>	<u>\$ 794,669</u>	<u>56.6 %</u>	<u>2.6</u>

(A) Average weighted by the outstanding principal of borrowings under the secured financing agreement.

Debt obligations included in the tables above are obligations of KREF's consolidated subsidiaries, which own the related collateral, and such collateral is generally not available to other creditors of KREF.

While KREF is generally not required to post margin under certain repurchase agreement terms for changes in general capital market conditions such as changes in credit spreads or interest rates, KREF may be required to post margin for changes in conditions to specific loans that serve as collateral for those repurchase agreements. Such changes may include declines in the appraised value of property that secures a loan or a negative change in the borrower's ability or willingness to repay a loan. To the extent that KREF is required to post margin, KREF's liquidity could be significantly impacted. Both KREF and its lenders work cooperatively to monitor the performance of the properties and operations related to KREF's loan investments to mitigate investment-specific credit risks. Additionally, KREF incorporates terms in the loans it originates to further mitigate risks related to loan nonperformance.

Activity — For the three months ended March 31, 2024, the activity related to the carrying value of KREF's secured financing agreements were as follows:

	Secured Financing Agreements, Net
Balance as of December 31, 2023	\$ 3,782,419
Principal borrowings	118,754
Principal repayments/sales	(381,269)
Deferred debt issuance costs	(1,718)
Amortization of deferred debt issuance costs	3,610
Balance as of March 31, 2024	\$ 3,521,796

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Maturities — KREF’s secured financing agreements, term loan facility and other consolidated debt obligations in place as of March 31, 2024 had contractual maturities as follows:

Year	Nonrecourse ^(A)	Recourse ^{(A)(B)}	Total
2024	\$ 127,498	\$ 22,296	\$ 149,794
2025	144,258	31,336	175,594
2026	1,367,285	370,307	1,737,592
2027	983,542	363,710	1,347,252
Thereafter	121,319	—	121,319
	<u>\$ 2,743,902</u>	<u>\$ 787,649</u>	<u>\$ 3,531,551</u>

(A) Represents the earlier of (i) the maximum maturity of the underlying loans pledged as collateral or (ii) the maximum maturity of the respective financing agreements.

(B) Except for the Revolver, which is full recourse, amounts borrowed are subject to a maximum 25.0% recourse limit. The Revolver matures in March 2027.

Covenants — KREF is required to comply with customary loan covenants and event of default provisions related to its secured financing agreements and Revolver, including, but not limited to, negative covenants relating to restrictions on operations with respect to KREF’s status as a REIT, and financial covenants. Such financial covenants include a trailing four quarter interest income to interest expense ratio covenant (1.4 to 1.0); a consolidated tangible net worth covenant (75.0% of the aggregate cash proceeds of any equity issuances made and any capital contributions received by KREF and certain subsidiaries, or up to approximately \$1,307.7 million depending upon the facility); a cash liquidity covenant (the greater of \$10.0 million or 5.0% of KREF's recourse indebtedness); and a total indebtedness covenant (83.3% of KREF's Total Assets, as defined in the applicable financing agreements). As of March 31, 2024 and December 31, 2023, KREF was in compliance with its financial debt covenants.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 6. Collateralized Loan Obligations

In August 2021, KREF financed a pool of loan participations from its existing loan portfolio through a managed CLO ("KREF 2021-FL2"). KREF 2021-FL2 provides KREF with match-term financing on a non-mark-to-market and non-recourse basis. KREF 2021-FL2 had a two-year reinvestment feature that allowed principal proceeds of the collateral assets to be reinvested in qualifying replacement assets, subject to the satisfaction of certain conditions set forth in the indenture.

In February 2022, KREF financed a pool of loan participations from its existing multifamily loan portfolio through a managed CLO ("KREF 2022-FL3"). KREF 2022-FL3 provides KREF with match-term financing on a non-mark-to-market and non-recourse basis and had a two-year reinvestment feature.

The CLO issuance costs are netted against the outstanding principal balance of the CLO notes in "Collateralized loan obligations, net" in the Condensed Consolidated Balance Sheets.

The following tables outline CLO collateral assets and respective borrowing as of March 31, 2024 and December 31, 2023:

	March 31, 2024					December 31, 2023		
	Facility				Wtd. Avg. Funding Cost ^(C)	Collateral ^(A)		Facility
	Wtd. Avg. Term ^(B)	Maximum Facility Size	Outstanding Principal	Carrying Value		Outstanding Principal	Carrying Value	Carrying Value
KREF 2021-FL2	February 2039	\$ 1,095,250	\$ 1,095,250	\$ 1,095,189	6.8%	\$ 1,300,000	\$ 1,285,619	\$ 1,095,128
KREF 2022-FL3	February 2039	847,500	847,500	847,380	7.1	1,000,000	991,272	847,043
Total		\$ 1,942,750	\$ 1,942,750	\$ 1,942,569	6.9%	\$ 2,300,000	\$ 2,276,891	\$ 1,942,171

- (A) Collateral loan assets represent 32.0% of the principal of KREF's commercial real estate loans as of March 31, 2024. As of March 31, 2024, 100% of loans financed through the CLOs are floating-rate loans.
- (B) The term of the CLO notes represents the rated final distribution date. Repayments of CLO notes are dependent on timing of underlying collateral loan asset repayments post reinvestment period.
- (C) Including deferred financing costs and applicable index in effect as of March 31, 2024. Average weighted by the outstanding principal of the facility.

The following table presents the CLO assets and liabilities included in KREF's Condensed Consolidated Balance Sheets:

<u>Assets</u>	March 31, 2024	December 31, 2023
Cash	\$ —	\$ 5,000
Commercial real estate loans, held-for-investment	2,298,580	2,295,000
Less: Allowance for credit losses	(23,109)	(21,216)
Commercial real estate loans, held-for-investment, net	2,275,471	2,273,784

(amount in tables in thousands, except per share amounts)

The following table presents the components of net interest income of CLOs included in KREF's Condensed Consolidated Statements of Income:

	Three Months Ended March 31,	
	2024	2023
Interest income	\$ 48,860	\$ 41,746
Interest expense ^(A)	34,365	31,223
Net interest income	<u>\$ 14,495</u>	<u>\$ 10,523</u>

(A) Includes \$0.6 million and \$2.1 million of deferred financing costs amortization for the three months ended March 31, 2024 and 2023, respectively.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 7. Secured Term Loan, Net

In September 2020, KREF entered into a \$300.0 million secured term loan at a price of 97.5%, which initially bore interest at a per annum rate equal to LIBOR plus a 4.75% margin, subject to a 1.0% LIBOR floor, payable quarterly beginning in December 2020. The secured term loan is partially amortizing, with an amount equal to 1.0% per annum of the principal balance due in quarterly installments starting March 31, 2021. The secured term loan matures on September 1, 2027 and contains restrictions relating to liens, asset sales, indebtedness, investments and transactions with affiliates. The secured term loan is secured by KREF level guarantees and does not include asset-based collateral. Upon the execution of the secured term loan, KREF recorded a \$7.5 million issuance discount and \$5.1 million in issuance costs.

In November 2021, KREF completed the repricing of a \$297.8 million then-existing secured term loan and a \$52.2 million add-on, for an aggregate principal amount of \$350.0 million due September 2027, which was issued at par. The upsize of the secured term loan was accounted for as partial debt extinguishment under GAAP, accordingly, KREF recognized an accelerated deferred loan financing cost of \$0.7 million during the fourth quarter of 2021. The new secured term loan bore interest at LIBOR plus 3.5%, subject to a 0.5% LIBOR floor. KREF recorded \$2.0 million in issuance costs.

In June 2023, KREF transitioned the secured term loan from LIBOR to Term SOFR. Inclusive of the amortization of the discount and issuance costs, KREF's total cost of the secured term loan is Adjusted Term SOFR, as defined in the secured term loan agreements, plus a 4.1% margin per annum, subject to the applicable SOFR floor, as of March 31, 2024.

The following table summarizes KREF's secured term loan as of March 31, 2024 and December 31, 2023, respectively:

	March 31, 2024	December 31, 2023
Principal	\$ 342,125	\$ 343,000
Deferred financing costs	(3,737)	(4,010)
Unamortized discount	(3,411)	(3,659)
Carrying value	<u>\$ 334,977</u>	<u>\$ 335,331</u>

Covenants — KREF is required to comply with customary loan covenants and event of default provisions related to its secured term loan that include, but are not limited to, negative covenants relating to restrictions on operations with respect to KREF's status as a REIT, and financial covenants. Such financial covenants include a minimum consolidated tangible net worth of \$650.0 million and a maximum Total Debt to Total Assets ratio, as defined in the secured term loan agreements, of 83.3% (the "Leverage Covenant"). KREF was in compliance with such covenants as of March 31, 2024 and December 31, 2023.

Loan funding held in escrow	7,325	—
Other	1,837	1,935
Total	<u>\$ 16,267</u>	<u>\$ 9,350</u>

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 9. Variable Interest Entities

Collateralized Loan Obligations — KREF consolidates CLOs when it determines that the CLO issuers, wholly-owned subsidiaries of KREF, are VIEs and that KREF is the primary beneficiary of such VIEs (Note 6). Management considers KREF to be the primary beneficiary of the CLO issuers as KREF has the ability to control the most significant activities of the CLO issuers, the obligation to absorb losses, and the right to receive benefits of the CLOs through the subordinate interests the CLO issuers own.

Real Estate Owned Joint Venture — Concurrently with taking title to a Portland retail property in December 2021, KREF contributed a portion of the REO asset to a REO JV with a JV Partner, whereby KREF has a 90% interest and the JV Partner has a 10% interest. Management determined the REO JV to be a VIE as the REO JV has insufficient equity-at-risk and concluded that KREF is the primary beneficiary of the REO JV as KREF holds decision-making power over the activities that most significantly impact the economic performance of the REO JV and has the obligation to absorb losses of, or the right to receive benefits from, the REO JV that could be potentially significant to the REO JV.

As of March 31, 2024, the REO JV held REO assets with a net carrying value of \$72.8 million. KREF has priority of distributions up to \$79.8 million before the JV Partner can participate in the economics of the REO JV.

Equity Method Investments — As of March 31, 2024, KREF held a 3.5% interest in RECOP I, an unconsolidated VIE of which KREF is not the primary beneficiary, at its fair value of \$35.1 million. The aggregator vehicle in which KREF invests is controlled and advised by affiliates of the Manager. RECOP I primarily acquired junior tranches of CMBS newly issued by third parties. KREF will not pay any fees to RECOP I, but KREF bears its pro rata share of RECOP I's expenses. KREF reported its share of the net asset value of RECOP I in its Condensed Consolidated Balance Sheets, presented as "Equity method investments" and its share of net income, presented as "Income (loss) from equity method investments" in the Condensed Consolidated Statements of Income.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 10. Equity

Authorized Capital — On October 2, 2014, KREF's board of directors authorized KREF to issue up to 350,000,000 shares of stock, at \$0.01 par value per share, consisting of 300,000,000 shares of common stock and 50,000,000 shares of preferred stock, subject to certain restrictions on transfer and ownership of shares. Restrictions placed on the transfer and ownership of shares relate to KREF's REIT qualification requirements.

Common Stock — As further described below, since December 31, 2021, KREF issued the following shares of common stock:

Pricing Date	Shares Issued ^(A)	Net Proceeds
As of December 31, 2021	64,759,200	\$ 1,282,734
February 2022 ^(B)	68,817	1,426
March 2022	6,494,155	133,845
June 2022	2,750,000	53,653
August 2022 ^(B)	271,641	5,300
As of December 31, 2023 and March 31, 2024	74,343,813	\$ 1,476,958

(A) Excludes 955,743 net shares of common stock issued to-date in connection with vested restricted stock units.

(B) Represents shares issued under the ATM.

In March and June of 2022, KREF issued 6,494,155 and 2,750,000 shares of common stock, respectively, in separate underwritten offerings each of which included the partial exercise of the underwriters' option to purchase additional shares of common stock, and received net proceeds after underwriting discounts and commissions of \$133.8 million and \$53.7 million, respectively.

During the three months ended March 31, 2024 and 2023, no shares of common stock were issued related to the vesting of restricted stock units. Upon any payment of shares as a result of restricted stock unit vesting, the related tax withholding obligation will generally be satisfied by KREF, reducing the number of shares to be delivered by a number of shares necessary to satisfy the related applicable tax withholding obligation. Refer to Note 11 for further detail.

Of the 75,299,556 common shares KREF issued, there were 69,313,860 common shares outstanding as of March 31, 2024, which included 955,743 net shares of common stock issued in connection with vested restricted stock units and was net of 5,985,696 common shares repurchased.

KKR and affiliates beneficially owned 10,000,001 shares, or 14.4% of KREF's outstanding common stock as of March 31, 2024 and December 31, 2023.

Share Repurchase Program — Under KREF's current share repurchase program, which has no expiration date, KREF may repurchase up to an aggregate of \$100.0 million of its common stock effective as of February 3, 2023, of which up to \$50.0 million may be repurchased under a pre-set trading plan meeting the requirements of Rule 10b5-1 under the Exchange Act, and provide for repurchases of common stock when the market price per share is below book value per share (calculated in accordance with GAAP as of the end of the most recent quarterly period for which financial statements are available), and the remaining \$50.0 million may be used for repurchases in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Exchange Act, in privately negotiated transactions or otherwise. The timing, manner, price and amount of any common stock repurchases will be determined by KREF in its discretion and will depend on a variety of factors, including legal requirements, price, liquidity and economic considerations, and market conditions. The program does not require KREF to repurchase any specific number of shares of common stock. The program does not have an expiration date and may be suspended, modified or discontinued at any time.

During the three months ended March 31, 2024, KREF did not repurchase any of its common stock under the repurchase program. As of March 31, 2024, KREF had \$100.0 million of remaining capacity to repurchase shares under the program.

At the Market Stock Offering Program — In February 2019, KREF entered into an equity distribution agreement with certain sales agents, pursuant to which KREF may sell, from time to time, up to an aggregate sales price of \$100.0 million of its common stock pursuant to a continuous offering program (the "ATM"). Sales of KREF's common stock made pursuant to the ATM may be made in negotiated transactions or transactions that are deemed to be "at the market" offerings as defined in Rule

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

415 under the Securities Act of 1933, as amended. The timing and amount of actual sales will depend on a variety of factors including market conditions, the trading price of KREF's common stock, KREF's capital needs, and KREF's determination of the appropriate sources of funding to meet such needs.

During the three months ended March 31, 2024, KREF did not issue or sell any shares of common stock under the ATM. As of March 31, 2024, \$93.2 million remained available for issuance under the ATM.

6.50% Series A Cumulative Redeemable Preferred Stock — The perpetual Series A Preferred Stock is redeemable, at KREF's option, at a liquidation price of \$25.00 per share plus accrued and unpaid dividends commencing in April 2026. Dividends on the Series A Preferred Stock are payable quarterly at a rate of 6.50% per annum of the \$25.00 liquidation preference, which is equivalent to \$1.625 per annum per share. With respect to dividend rights and liquidation, the Series A Preferred Stock ranks senior to KREF's common stock.

Noncontrolling Interests — Noncontrolling interests represent a third party's 10.0% interest in a joint venture, a consolidated VIE, that holds portion of KREF's sole REO investment. KREF and the noncontrolling interest holder contribute to the joint venture's ongoing operating shortfalls and capital expenditures on a pari passu basis. Distributions from the joint venture are allocated between KREF and the noncontrolling interest holder based on contractual terms and waterfalls as outlined in the joint venture agreement.

Dividends — During the three months ended March 31, 2024 and 2023, KREF's board of directors declared the following dividends on shares of its common stock:

Declaration Date	Record Date	Payment Date	Amount	
			Per Share	Total
2024				
February 1, 2024	March 28, 2024	April 15, 2024	\$ 0.25	\$ 17,328
				<u>\$ 17,328</u>
2023				
March 17, 2023	March 31, 2023	April 14, 2023	\$ 0.43	\$ 29,711
				<u>\$ 29,711</u>

During the three months ended March 31, 2024 and 2023, KREF's board of directors declared the following dividends on shares of its Series A Preferred Stock:

Declaration Date	Record Date	Payment Date	Amount	
			Per Share	Total
2024				
February 1, 2024	February 29, 2024	March 15, 2024	\$ 0.41	\$ 5,326
				<u>\$ 5,326</u>
2023				
February 3, 2023	February 28, 2023	March 15, 2023	\$ 0.41	\$ 5,326
				<u>\$ 5,326</u>

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 11. Stock-based Compensation

KREF is externally managed by the Manager and does not currently have any employees. However, as of March 31, 2024, certain individuals employed by the Manager and affiliates of the Manager and certain members of KREF's board of directors were compensated, in part, through the issuance of stock-based awards.

As of March 31, 2024, KREF had 1,145,977 restricted stock unit (“RSU”) awards outstanding under the KKR Real Estate Finance Trust Inc. 2016 Omnibus Incentive Plan that was adopted on February 12, 2016 and amended and restated on November 17, 2016 (the "Incentive Plan") to certain members of KREF’s board of directors and employees of the Manager or its affiliates, none of whom are KREF employees. RSUs awarded to employees of the Manager or its affiliates, generally vest over three consecutive one-year periods and awards to certain members of KREF's board of directors generally vest over a one-year period, pursuant to the terms of the respective award agreements and the terms of the Incentive Plan.

In December 2021, KREF's board of directors granted 400,000 shares of RSU awards that are entitled to nonforfeitable dividends during the vesting periods, at the same rate as those declared on the common stock. In February 2022, KREF's board of directors approved a modification that entitled the unvested RSU awards granted prior to December 2021 to dividends during the vesting periods, at the same rate as those declared on the common stock, starting with the first quarter of 2022.

The following table summarizes the activity in KREF’s outstanding RSUs and the weighted-average grant date fair value per RSU:

	Restricted Stock Units	Weighted Average Grant Date Fair Value Per RSU ^(A)
Unvested as of December 31, 2023	1,147,927	\$ 14.49
Granted	—	—
Vested	—	—
Forfeited / cancelled	(1,950)	14.46
Unvested as of March 31, 2024	<u>1,145,977</u>	<u>\$ 14.49</u>

(A) The grant-date fair value is based upon the closing price of KREF’s common stock at the date of grant.

KREF expects the unvested RSUs outstanding to vest during the following years:

Year	Restricted Stock Units
2024	557,452
2025	380,608
2026	207,917
Total	<u>1,145,977</u>

KREF recognizes the compensation cost of RSUs awarded to employees of the Manager, or one or more of its affiliates, on a straight-line basis over the awards’ term at their grant date fair value, consistent with the RSUs awarded to certain members of KREF's board of directors.

During the three months ended March 31, 2024 and 2023, KREF recognized \$2.3 million and \$2.2 million respectively, of stock-based compensation expense included in “General and administrative” expense in the Condensed Consolidated Statements of Income. As of March 31, 2024, there was \$12.5 million of total unrecognized stock-based compensation expense related to unvested share-based compensation arrangements. This cost is expected to be recognized over a weighted average period of 1.1 years.

During the three months ended March 31, 2024 and 2023, KREF declared \$0.3 million and \$0.4 million, respectively, of nonforfeitable dividends on unvested RSUs. Such nonforfeitable dividends were deducted from “Retained earnings (Accumulated deficit)” in the Condensed Consolidated Statement of Changes in Equity.

Directors and Officers Deferral Plan — In March 2022, KREF's board of directors adopted the KKR Real Estate Finance Trust Inc. Directors and Officers Deferral Plan (the “Deferral Plan”). Pursuant to the Deferral Plan, participants may elect to defer receipt of all or a portion of any shares of KREF’s common stock issuable upon vesting of any RSU granted to such

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

participant in 25% increments. Deferred stock units (“DSU”) credited to a participant are non-voting but shall be entitled to dividend equivalent payments upon payment of dividends on shares of KREF’s common stock in the same form and amount equal to the amount of such dividends and are not subject to deferral under the Deferral Plan. During the three months ended March 31, 2024, no vested RSUs were deferred under the Deferral Plan. As of March 31, 2024, there were 72,708 DSUs outstanding.

Upon any payment of shares as a result of restricted stock unit vesting, the related tax withholding obligation will generally be satisfied by KREF, reducing the number of shares to be delivered by a number of shares necessary to satisfy the related applicable tax withholding obligation. The amount results in a cash payment related to this tax liability and a corresponding reduction to additional paid-in capital in the Condensed Consolidated Statement of Changes in Equity. No shares were delivered for vested RSUs during the three months ended March 31, 2024.

Refer to Note 14 for additional information regarding the Incentive Plan.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 12. Earnings (Loss) per Share

Earnings (Loss) per Share — KREF calculates its basic EPS using the two-class method, which defines unvested share-based payment awards that contain nonforfeitable rights to dividends as participating securities. Under the two-class method earnings (distributed and undistributed) are allocated to common shares and participating securities based on their respective rights. Basic EPS, is calculated by dividing net income (loss) attributable to common stockholders by the weighted average common stock outstanding for the period.

KREF presents diluted EPS under the more dilutive of the treasury stock and if-converted methods or the two-class method. Under the treasury stock and if-converted methods, the denominator includes weighted average common stock outstanding plus the incremental dilutive shares issuable from restricted stock units and an assumed conversion of the Convertible Notes (for the periods in which such notes were outstanding). The numerator includes any changes in income (loss) that would result from the assumed conversion of these potential shares of common stock.

For the three months ended March 31, 2024 and 2023, 39,369 and 20,426 weighted average unvested RSUs, respectively, were excluded from the calculation of diluted EPS because the effect was anti-dilutive.

Since May 15, 2023, there were no convertible instruments outstanding. For the three months ended March 31, 2023, 6,316,174 potentially issuable shares related to the Convertible Notes were excluded from the calculation of diluted EPS because the effect was anti-dilutive.

The following table illustrates the computation of basic and diluted EPS for the three months ended March 31, 2024 and 2023:

	Three Months Ended March 31,	
	2024	2023
Earnings		
Net Income (Loss)	\$ (3,108)	\$ (25,077)
Less: Preferred stock dividends	5,326	5,326
Less: Participating securities' share in earnings	305	407
Net income (loss) attributable to common stockholders, basic and diluted	<u>\$ (8,739)</u>	<u>\$ (30,810)</u>
Shares		
Weighted average common shares outstanding	69,313,860	69,095,011
Add: Deferred stock units	72,708	—
Add: Dilutive restricted stock units	—	—
Diluted weighted average common shares outstanding	<u>69,386,568</u>	<u>69,095,011</u>
Net income (loss) attributable to common stockholders, per:		
Basic common share	<u>\$ (0.13)</u>	<u>\$ (0.45)</u>
Diluted common share	<u>\$ (0.13)</u>	<u>\$ (0.45)</u>

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 13. Commitments and Contingencies

As of March 31, 2024, KREF was subject to the following commitments and contingencies:

Litigation — From time to time, KREF may be involved in various claims and legal actions arising in the ordinary course of business. KREF establishes an accrued liability for legal proceedings only when those matters present loss contingencies that are both probable and reasonably estimable.

As of March 31, 2024, KREF was not involved in any material legal proceedings regarding claims or legal actions against KREF.

Indemnifications — In the normal course of business, KREF enters into contracts that contain a variety of representations and warranties that provide general indemnifications and other indemnities relating to contractual performance. In addition, certain of KREF's subsidiaries have provided certain indemnities relating to environmental and other matters and has provided nonrecourse carve-out guarantees for fraud, willful misconduct and other customary wrongful acts, each in connection with the financing of certain real estate investments that KREF has made. KREF's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against KREF that have not yet occurred. However, KREF expects the risk of material loss to be low.

Capital Commitments — As of March 31, 2024, KREF had future funding commitments of \$725.0 million related to its investments in commercial real estate loans. These future funding commitments primarily relate to construction projects, capital improvements, tenant improvements and leasing commissions. Generally, funding commitments are subject to certain conditions that must be met, such as customary construction draw certifications, minimum credit metrics or executions of new leases before advances are made to the borrower.

In January 2017, KREF committed \$40.0 million to invest in an aggregator vehicle alongside RECOP I. The two-year investment period for RECOP I ended in April 2019. As of March 31, 2024, KREF had a remaining commitment of \$4.3 million to RECOP I.

Macroeconomic Environment — The Federal Reserve has raised interest rates eleven times since January 2022. Higher interest rates imposed by the Federal Reserve to address inflation may adversely impact real estate asset values and increase our interest expense, which expense may not be fully offset by any resulting increase in interest income, and may lead to decreased prepayments from KREF's borrowers and an increase in the number of KREF's borrowers who exercise extension options. The Federal Reserve has indicated that it may decrease interest rates in 2024. In a period of declining interest rates, our interest income on floating-rate investments would generally decrease, while any decrease in the interest we are charged on our floating-rate debt may be subject to floors and may not compensate for such decrease in interest income.

KKR Real Estate Finance Trust Inc.

(amount in tables in thousands, except per share amounts)

Note 14. Related Party Transactions

Management Agreement — The Management Agreement between KREF and the Manager is a three-year agreement that provides for automatic one-year renewal periods starting October 8, 2017, subject to certain termination and nonrenewal rights, which in the case of KREF are exercisable by a two-thirds vote by the independent directors of KREF's board of directors. If the independent directors of KREF's board of directors decline to renew the Management Agreement other than for cause, KREF is required to pay the Manager a termination fee equal to three times the total 24-month trailing average annual management fee and incentive compensation earned by the Manager through the most recently completed calendar quarter. For administrative efficiency purposes, the Management Agreement was amended in August 2019 to change the expiration date of each automatic renewal period from October 7th to December 31st.

Pursuant to the Management Agreement, the Manager, as agent to KREF and under the supervision of KREF's board of directors, manages the investments, subject to investment guidelines approved by KREF's board of directors; financing activities; and day-to-day business and affairs of KREF and its subsidiaries.

For its services to KREF, the Manager is entitled to a quarterly management fee equal to the greater of \$62,500 or 0.375% of weighted average adjusted equity and quarterly incentive compensation equal to 20.0% of the excess of (a) the trailing 12-month distributable earnings (before incentive compensation payable to the Manager) over (b) 7.0% of the trailing 12-month weighted average adjusted equity ("Hurdle Rate"), less incentive compensation KREF already paid to the Manager with respect to the first three calendar quarters of such trailing 12-month period. The quarterly incentive compensation is calculated and paid in arrears with a one-quarter lag.

Adjusted equity generally represents the proceeds received by KREF and its subsidiaries from equity issuances, without duplication and net of offering costs, and distributable earnings, reduced by distributions, equity repurchases, and incentive compensation paid. Distributable earnings generally represent the net income, or loss, attributable to equity interests in KREF and its subsidiaries, without duplication, as well as realized losses not otherwise included in such net income, or loss, excluding non-cash equity compensation expense, incentive compensation, depreciation and amortization and unrealized gains or losses, from and after the effective date to the end of the most recently completed calendar quarter. KREF's board of directors, after majority approval by independent directors, may also exclude one-time events pursuant to changes in GAAP and certain material non-cash income or expense items from distributable earnings. For purposes of calculating incentive compensation, adjusted equity excludes: (i) the effects of equity issued by KREF and its subsidiaries that provides for fixed distributions or other debt characteristics and (ii) unrealized provision for (reversal of) credit losses.

KREF is also required to reimburse the Manager or its affiliates for documented costs and expenses incurred by it and its affiliates on behalf of KREF, except those specifically required to be borne by the Manager under the Management Agreement. The Manager is responsible for, and KREF does not reimburse the Manager or its affiliates for, the expenses related to investment personnel of the Manager and its affiliates who provide services to KREF. However, KREF does reimburse the Manager for KREF's allocable share of compensation paid to certain of the Manager's non-investment personnel, based on the percentage of time devoted by such personnel to KREF's affairs.

Incentive Plan — KREF's compensation committee or board of directors may administer the Incentive Plan, which provides for awards of stock options; stock appreciation rights; restricted stock; RSUs; limited partnership interests of KKR Real Estate Finance Holdings L.P. (the "Operating Partnership"), a wholly owned subsidiary of KREF, that are directly or indirectly convertible into or exchangeable or redeemable for shares of KREF's common stock pursuant to the limited partnership agreement of the Operating Partnership ("OP Interests"); awards payable by (i) delivery of KREF's common stock or other equity interests, or (ii) reference to the value of KREF's common stock or other equity interests, including OP Interests; cash-based awards; or performance compensation awards.

No more than 7.5% of the issued and outstanding shares of common stock on a fully diluted basis, assuming the exercise of all outstanding stock options granted under the Incentive Plan and the conversion of all warrants and convertible securities into shares of common stock, or a total of 4,028,387 shares of common stock, will be available for awards under the Incentive Plan. In addition, (i) the maximum number of shares of common stock subject to awards granted during a single fiscal year to any non-employee director (as defined in the Incentive Plan), taken together with any cash fees paid to such non-employee director during the fiscal year, may not exceed \$1.0 million and (ii) the maximum amount that can be paid to any participant for a single fiscal year during a performance period (or with respect to each single fiscal year if a performance period extends beyond a single fiscal year) pursuant to a performance compensation award denominated in cash may not exceed \$10.0 million.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

No awards may be granted under the Incentive Plan on and after February 12, 2026. The Incentive Plan will continue to apply to awards granted prior to such date. During the three months ended March 31, 2024 and 2023, no awards were granted to KREF's directors and employees of the Manager or its affiliates. As of March 31, 2024, 1,853,959 shares of common stock remained available for awards under the Incentive Plan.

Due to Affiliates — The following table contains the amounts presented in KREF's Condensed Consolidated Balance Sheets that it owes to affiliates:

	March 31, 2024	December 31, 2023
Management fees	\$ 6,340	\$ 6,523
KCM fees	1,747	1,747
	<u>\$ 8,087</u>	<u>\$ 8,270</u>

Affiliates Expenses — The following table contains the amounts included in KREF's Condensed Consolidated Statements of Income that arose from transactions with the Manager:

	Three Months Ended March 31,	
	2024	2023
Management fees	\$ 6,340	\$ 6,523
Incentive compensation	—	1,811
Expense reimbursements and other	1,210	1,153
	<u>\$ 7,550</u>	<u>\$ 9,487</u>

In connection with the ATM, KCM, in its capacity as one of the sales agents, will receive commissions for the shares of KREF's common stock it sells. This amount is not to exceed, but may be less than, 2.0% of the gross sales price per share. KREF did not sell shares under the ATM and did not incur or pay any commissions to KCM during the three months ended March 31, 2024 and 2023.

In connection with the BMO Facility, and in consideration for its services as the structuring agent, KREF is obligated to pay KCM a structuring fee equal to 0.35% of the respective committed loan advances under the agreement. Such fees are capitalized as deferred financing cost and amortized to interest expense over the draw period of the facility. No KCM structuring fees in connection with the facility were paid during the three months ended March 31, 2024 and 2023.

In connection with the KREF Lending IX Facility entered into in July 2021, and in consideration for structuring and sourcing this arrangement, KREF is obligated to pay KCM a structuring fee equal to 0.75% of the respective committed loan advances under the agreement. Such fees are capitalized as deferred financing cost and amortized to interest expense over the draw period of the facility. During the three months ended March 31, 2024 and 2023, KREF paid KCM zero and \$0.1 million in structuring fees in connection with the facility, respectively.

In connection with the KREF Lending XII Facility entered into in 2022, and in consideration for structuring and sourcing this arrangement, KREF is obligated to pay KCM a structuring fee equal to 0.35% of the respective loan advances under the agreement. Such fees are capitalized as deferred financing cost and amortized to interest expense over the draw period of the facility. No KCM structuring fees in connection with the facility were paid during the three months ended March 31, 2024 and 2023.

	<u>\$ 6,079,816</u>	<u>\$ 6,059,921</u>	<u>\$ 6,059,921</u>	<u>\$ —</u>	<u>\$ 338,500</u>	<u>\$ 5,675,769</u>	<u>\$ 6,014,269</u>

- (A) The amortized cost of commercial real estate loans is net of \$20.8 million of unamortized origination discounts, cost recovery interest and deferred fees. The amortized cost of secured financing agreements is net of \$11.6 million of unamortized debt issuance costs. The amortized cost of collateralized loan obligations is net of \$0.6 million of unamortized debt issuance costs.
- (B) The carrying value of commercial mortgage loans is net of \$210.5 million allowance for credit losses.
- (C) Excludes fully written off risk-rated 5 loans. Includes \$2,295.0 million of CLO loan participations.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

The following table contains the Level 3 inputs used to value assets and liabilities on a recurring and nonrecurring basis or where KREF discloses fair value as of March 31, 2024:

	Fair Value	Valuation Methodologies	Unobservable Inputs ^(A)	Weighted Average ^(B)	Range
Assets and Liabilities^(C)					
Commercial real estate loans, held-for-investment ^(D)	\$ 6,851,540	Discounted cash flow	Discount margin	4.4%	3.3% - 17.2%
			Discount rate	10.8%	9.0% - 12.0%
			Capitalization rate	7.9%	7.0% - 9.0%
	<u>\$ 6,851,540</u>				

- (A) An increase (decrease) in the valuation input results in a decrease (increase) in value.
- (B) Represents the average of the input value, weighted by the unpaid principal balance of the financial instrument.
- (C) KREF carries a \$35.1 million investment in an aggregator vehicle alongside RECOP I (Note 9) at its pro rata share of the aggregator's net asset value, which management believes approximates fair value.
- (D) Commercial real estate loans are generally valued using a discounted cash flow model using a discount rate derived from relevant market indices and/or estimates of the underlying property's value.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain assets not measured at fair value on an ongoing basis but subject to fair value adjustments only in certain circumstances, such as when there is evidence of impairment, are measured at fair value on a nonrecurring basis. KREF measures commercial real estate loans held-for-sale at the lower of cost or fair value and may be required, from time to time, to record a nonrecurring fair value adjustment. KREF measures commercial real estate loans held-for-investment at amortized cost, but may be required, from time to time, to record a nonrecurring fair value adjustment in the form of a valuation provision or impairment.

Assets and Liabilities for Which Fair Value is Only Disclosed

KREF does not carry its secured financing agreements at fair value as management did not elect the fair value option for these liabilities. As of March 31, 2024, the fair value of KREF's financing facilities approximated their respective carrying value.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 16. Income Taxes

KREF has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code commencing with its taxable year ended December 31, 2014. A REIT is generally not subject to U.S. federal and state income tax on that portion of its income that is distributed to stockholders if it distributes at least 90% of its REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gains. A REIT will also be subject to a nondeductible excise tax to the extent certain percentages of its taxable income are not distributed within specified dates. While KREF expects to distribute at least 90% of its net taxable income for the foreseeable future, KREF will continue to evaluate its capital and liquidity needs in light of existing economic and market conditions.

KREF consolidates subsidiaries that incur U.S. federal, state and local income taxes, based on the tax jurisdiction in which each subsidiary operates. During the three months ended March 31, 2024 and 2023, KREF recorded an income tax expense of approximately zero and \$0.2 million, respectively, related to the operations of its taxable REIT subsidiaries and various other state and local taxes. There were no material deferred tax assets or liabilities as of March 31, 2024 and December 31, 2023.

KKR Real Estate Finance Trust Inc.
Notes to Condensed Consolidated Financial Statements
(amount in tables in thousands, except per share amounts)

Note 17. Subsequent Events

The following events occurred subsequent to March 31, 2024:

Corporate Activities

Dividends

In April 2024, KREF paid \$17.3 million in dividends on its common stock, or \$0.25 per share, with respect to the first quarter of 2024, to stockholders of record on March 28, 2024.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto appearing elsewhere in this Form 10-Q. The historical consolidated financial data below reflects the historical results and financial position of KREF. In addition, this discussion and analysis contains forward-looking statements and involves numerous risks and uncertainties, including those described under Part I, Item 1A. "Risk Factors" in the Form 10-K and under "Cautionary Note Regarding Forward-Looking Statements." Actual results may differ materially from those contained in any forward-looking statements.

Overview

Our Company and Our Investment Strategy

We are a real estate finance company that focuses primarily on originating and acquiring transitional senior loans secured by commercial real estate ("CRE") assets. We are a Maryland corporation that was formed and commenced operations on October 2, 2014, and we have elected to qualify as a REIT for U.S. federal income tax purposes. Our investment strategy is to originate or acquire transitional senior loans collateralized by institutional-quality CRE assets that are owned and operated by experienced and well-capitalized sponsors and located in top markets with strong underlying fundamentals. The assets in which we invest include senior loans, mezzanine loans, preferred equity and commercial mortgage-backed securities ("CMBS") and other real estate-related securities. Our investment allocation strategy is influenced by prevailing market conditions at the time we invest, including interest rate, economic and credit market conditions. In addition, we may invest in assets other than our target assets in the future, in each case subject to maintaining our qualification as a REIT for U.S. federal income tax purposes and our exclusion from registration under the Investment Company Act. Our investment objective is capital preservation and generating attractive risk-adjusted returns for our stockholders over the long term, primarily through dividends.

Our Manager

We are externally managed by our Manager, KKR Real Estate Finance Manager LLC, an indirect subsidiary of KKR & Co. Inc. KKR is a leading global investment firm with an over 45-year history of leadership, innovation, and investment excellence. KKR manages multiple alternative asset classes, including private equity, real estate, energy, infrastructure and credit, with strategic manager partnerships that manage hedge funds. Our Manager manages our investments and our day-to-day business and affairs in conformity with our investment guidelines and other policies that are approved and monitored by our board of directors. Our Manager is responsible for, among other matters, (i) the selection, origination or purchase and sale of our portfolio investments, (ii) our financing activities and (iii) providing us with investment advisory services. Our Manager is also responsible for our day-to-day operations and performs (or causes to be performed) such services and activities relating to our investments and business and affairs as may be appropriate. Our investment decisions are approved by an investment committee of our Manager that is comprised of senior investment professionals of KKR, including senior investment professionals of KKR's global real estate group. For a summary of certain terms of the management agreement, see Note 14 to our condensed consolidated financial statements included in this Form 10-Q.

Macroeconomic Environment

The year ended December 31, 2023 and period ended March 31, 2024 were impacted by significant volatility in global markets, largely driven by rising inflation, rising interest rates, slowing economic growth, geopolitical uncertainty and instability in the banking sector following multiple bank failures. Central banks have responded to rapidly rising inflation with monetary policy tightening actions that are likely to create headwinds to economic growth. The Federal Reserve has raised interest rates eleven times since January 2022, and has signaled that further interest rate increases may be forthcoming. Although our business model is such that rising interest rates will generally correlate to increases in our net income, increases in interest rates may adversely affect our existing borrowers. Higher interest rates imposed by the Federal Reserve to address inflation may adversely impact real estate asset values and increase our interest expense, which expense may not be fully offset by any resulting increase in interest income, and may lead to decreased prepayments from our borrowers and an increase in the number of our borrowers who exercise extension options.

With respect to the COVID-19 pandemic, while the global economy has re-opened, the longer-term macro-economic effects of the pandemic continue to impact many industries, including those of certain of our borrowers. In particular, the increase in

remote working arrangements in response to the pandemic has contributed to a decline in commercial real estate values and reduced demand for commercial real estate compared to pre-pandemic levels, which have adversely impacted and may continue to adversely impact certain of our borrowers and has persisted even as the pandemic continues to subside.

Key Financial Measures and Indicators

As a real estate finance company, we believe the key financial measures and indicators for our business are earnings per share, dividends declared, Distributable Earnings and book value per share.

Earnings (Loss) Per Share and Dividends Declared

The following table sets forth the calculation of basic and diluted net income (loss) per share and dividends declared per share (amounts in thousands, except share and per share data):

	Three Months Ended,	
	March 31, 2024	December 31, 2023
Net income (loss) attributable to common stockholders	\$ (8,739)	\$ (18,738)
Weighted-average number of shares of common stock outstanding, basic and diluted	69,386,568	69,384,309
Net income (loss) per share, basic and diluted	\$ (0.13)	\$ (0.27)
Dividends declared per share	\$ 0.25	\$ 0.43

Distributable Earnings

Distributable Earnings, a measure that is not prepared in accordance with GAAP, is a key indicator of our ability to generate sufficient income to pay our quarterly dividends and in determining the amount of such dividends, which is the primary focus of yield/income investors who comprise a significant portion of our investor base. Accordingly, we believe providing Distributable Earnings on a supplemental basis to our net income as determined in accordance with GAAP is helpful to our stockholders in assessing the overall performance of our business.

We define Distributable Earnings as net income (loss) attributable to our stockholders or, without duplication, owners of our subsidiaries, computed in accordance with GAAP, including realized losses not otherwise included in GAAP net income (loss) and excluding (i) non-cash equity compensation expense, (ii) depreciation and amortization, (iii) any unrealized gains or losses or other similar non-cash items that are included in net income for the applicable reporting period, regardless of whether such items are included in other comprehensive income or loss, or in net income, and (iv) one-time events pursuant to changes in GAAP and certain material non-cash income or expense items agreed upon after discussions between our Manager and our board of directors and after approval by a majority of our independent directors. The exclusion of depreciation and amortization from the calculation of Distributable Earnings only applies to debt investments related to real estate to the extent we foreclose upon the property or properties underlying such debt investments.

While Distributable Earnings excludes the impact of our unrealized current provision for (reversal of) credit losses, any loan losses are charged off and realized through Distributable Earnings when deemed non-recoverable. Non-recoverability is generally determined (i) upon the resolution of a loan (i.e. when the loan is repaid, fully or partially, or, in the case of foreclosure, when the underlying asset is sold), or (ii) if, in our determination, it is nearly certain that all amounts due under a loan will not be collected.

Distributable Earnings should not be considered as a substitute for GAAP net income or taxable income. We caution readers that our methodology for calculating Distributable Earnings may differ from the methodologies employed by other REITs to calculate the same or similar supplemental performance measures, and as a result, our reported Distributable Earnings may not be comparable to similar measures presented by other REITs.

We also use Distributable Earnings (before incentive compensation payable to our Manager) to determine the management and incentive compensation we pay our Manager. For its services to KREF, our Manager is entitled to a quarterly management fee equal to the greater of \$62,500 or 0.375% of weighted average adjusted equity and quarterly incentive compensation equal to 20.0% of the excess of (a) the trailing 12-month Distributable Earnings (before incentive compensation payable to our Manager) over (b) 7.0% of the trailing 12-month weighted average adjusted equity⁽¹⁾ (“Hurdle Rate”), less incentive

compensation KREF already paid to the Manager with respect to the first three calendar quarters of such trailing 12-month period. The quarterly incentive compensation is calculated and paid in arrears with a three-month lag.

- (1) For purposes of calculating incentive compensation under our Management Agreement, adjusted equity excludes: (i) the effects of equity issued that provides for fixed distributions or other debt characteristics and (ii) the unrealized provision for (reversal of) credit losses.

The following table provides a reconciliation of GAAP net income attributable to common stockholders to Distributable Earnings (amounts in thousands, except share and per share data):

	<u>Three Months Ended</u> <u>March 31, 2024</u>	<u>Per Diluted</u> <u>Share^(A)</u>	<u>Three Months Ended</u> <u>December 31, 2023</u>	<u>Per Diluted</u> <u>Share^(A)</u>
Net Income (Loss) Attributable to Common Stockholders	\$ (8,739)	\$ (0.13)	\$ (18,738)	\$ (0.27)
Adjustments				
Non-cash equity compensation expense	2,296	0.03	1,565	0.02
Unrealized (gains) or losses, net	(102)	—	419	0.01
Provision for credit losses, net	33,266	0.48	49,500	0.71
Distributable Earnings before realized loss on loan write-offs	<u>\$ 26,721</u>	<u>\$ 0.39</u>	<u>\$ 32,746</u>	<u>\$ 0.47</u>
Realized loss on loan write-offs ^(B)	—	—	(58,706)	(0.85)
Distributable Earnings (Loss)	<u>\$ 26,721</u>	<u>\$ 0.39</u>	<u>\$ (25,960)</u>	<u>\$ (0.37)</u>
Diluted weighted average common shares outstanding	<u>69,386,568</u>		<u>69,384,309</u>	

(A) Numbers presented may not foot due to rounding.

(B) Includes a \$58.7 million write-off of a defaulted senior loan upon deed-in-lieu of foreclosure during the three months ended December 31, 2023.

Book Value per Share

We believe that book value per share is helpful to stockholders in evaluating the growth of our company as we have scaled our equity capital base and continue to invest in our target assets. The following table calculates our book value per share (amounts in thousands, except share and per share data):

	<u>March 31, 2024</u>	<u>December 31, 2023</u>
KKR Real Estate Finance Trust Inc. stockholders' equity	\$ 1,380,996	\$ 1,404,767
Series A preferred stock (liquidation preference of \$25.00 per share)	(327,750)	(327,750)
Common stockholders' equity	<u>\$ 1,053,246</u>	<u>\$ 1,077,017</u>
Shares of common stock issued and outstanding at period end	69,313,860	69,313,860
Add: Deferred stock units	72,708	72,708
Total shares outstanding at period end	<u>69,386,568</u>	<u>69,386,568</u>
Book value per share	\$ 15.18	\$ 15.52

Book value as of March 31, 2024 included the impact of an estimated CECL credit loss allowance of \$245.8 million, or (\$3.54) per share. See Note 2 — Summary of Significant Accounting Policies, to our condensed consolidated financial statements included in this Form 10-Q for detailed discussion of allowance for credit losses.

Our Portfolio

We have established a \$7,522.2 million portfolio of diversified investments, consisting primarily of senior commercial real estate loans as of March 31, 2024.

During the three months ended March 31, 2024, we collected 96.6% of interest payments due on our loan portfolio. As of March 31, 2024, the average risk rating of our loan portfolio was 3.2, weighted by total loan exposure. As of March 31, 2024, the average loan commitment in our portfolio was \$120.2 million and multifamily and industrial loans comprised 58% of our loan portfolio.

In addition, as a result of taking title to the collateral of defaulted senior loans, we owned REO assets with a net carrying value of \$160.7 million, comprised of the fair value of the acquired properties and capitalized redevelopment costs, as of March 31, 2024. These properties are reflected on our Condensed Consolidated Balance Sheet.

Since our IPO, we have continued to execute on our primary investment strategy of originating floating-rate transitional senior loans and, as we continue to scale our loan portfolio, we expect that our originations will continue to be heavily weighted toward floating-rate loans. As of March 31, 2024, 99% of our loans by total loan exposure earned a floating rate of interest. We expect the majority of our future investment activity to focus on originating floating-rate senior loans that we finance with our repurchase and other financing facilities, with a secondary focus on originating floating-rate loans for which we syndicate a senior position and retain a subordinated interest for our portfolio. As of March 31, 2024, all of our investments were located in the United States.

The following charts illustrate the diversification and composition of our loan portfolio, based on type of investment, interest rate, underlying property type, geographic location, vintage and LTV as of March 31, 2024:

The charts above are based on total loan exposure of our commercial real estate loans.

- (A) Excludes: (i) REO (ii) CMBS B-Piece investments held through an equity method investment and (iii) fully written off risk-rated 5 loans.
- (B) Senior loans include senior mortgages and similar credit quality loans, including related contiguous junior participations in senior loans where we have financed a loan with structural leverage through the non-recourse sale of a corresponding first mortgage.
- (C) We classify a loan as life science if more than 50% of the gross leasable area is leased to, or will be converted to, life science-related space.
- (D) "Other" property type includes Self-Storage (2%), Student Housing (2%) and Single Family Rental (1%).
- (E) LTV is generally based on the initial loan amount divided by the as-is appraised value as of the date the loan was originated. Weighted average LTV includes non-consolidated senior interests and excludes risk-rated 5 loans.

The following table details our quarterly loan activity (dollars in thousands):

	Three Months Ended			
	March 31, 2024	December 31, 2023	September 30, 2023	June 30, 2023
Loan originations	\$ —	\$ —	\$ —	\$ —
Loan fundings ^(A)	\$ 103,474	\$ 138,655	\$ 164,882	\$ 177,162
Loan repayments ^(B)	(335,658)	(188,106)	(152,301)	(339,288)
Net fundings	(232,184)	(49,451)	12,581	(162,126)
PIK interest	25	—	—	—
Write-offs ^(C)	—	(58,706)	(15,000)	—
Transfer to REO	—	(86,422)	—	—
Total activity	\$ (232,159)	\$ (194,579)	\$ (2,419)	\$ (162,126)

(A) Includes initial funding of new loans and additional fundings made under existing loans.

(B) Includes \$4.7 million of cost recovery interest applied as a reduction to loan principal during the three months ended December 31, 2023.

(C) Includes a \$58.7 million write-off on a defaulted senior loan upon deed-in-lieu of foreclosure during the three months ended December 31, 2023, and a \$15.0 million write-off of a subordinated loan during the three months ended September 30, 2023.

The following table details overall statistics for our loan portfolio as of March 31, 2024 (dollars in thousands):

	Balance Sheet Portfolio	Total Loan Exposure ^(A)		
		Total Loan Portfolio	Floating Rate Loans	Fixed Rate Loans ^(B)
Number of loans	67	67	67	—
Principal balance	\$ 7,137,266	\$ 7,325,877	\$ 7,246,877	\$ 79,000
Amortized cost	7,113,256	7,301,867	7,227,149	74,718
Unfunded loan commitments ^(C)	724,998	724,998	719,598	5,400
Weighted average cash coupon ^(D)	8.7 %	8.7 %	S + 3.4%	*
Weighted average all-in yield ^(D)	8.9 %	8.9 %	S + 3.6%	*
Weighted average maximum maturity (years) ^(E)	2.5	2.5	2.5	1.4
LTV ^(F)	65 %	65 %	65 %	n/a

* Rounds to zero

(A) In certain instances, we finance our loans through the non-recourse sale of a senior interest that is not included in our condensed consolidated financial statements. Total loan exposure includes the entire loan we originated and financed.

(B) Represents mezzanine loans with commitments of \$79.4 million and \$5.0 million, respectively, accompanying two senior loans. \$79.0 million of loan principal was funded, of which \$74.4 million was placed on nonaccrual status, as of March 31, 2024. The remaining \$4.6 million funded principal earned a fixed interest rate of 10.0% as of March 31, 2024. Refer to Note 3 to our condensed consolidated financial statements for additional information.

(C) Unfunded commitments will primarily be funded to finance property improvements and renovations or lease-related expenditures by the borrowers. These future commitments may be funded over the term of each loan, subject in certain cases to an expiration date.

(D) In addition to cash coupon, all-in yield includes the amortization of deferred origination fees, loan origination costs and purchase discounts. The calculations of weighted average cash coupon and all-in yield excludes loans accounted for under the cost recovery method.

(E) Maximum maturity assumes all extension options are exercised by the borrower; however, our loans may be repaid prior to such date.

(F) LTV is generally based on the initial loan amount divided by the as-is appraised value as of the date the loan was originated. Weighted average LTV includes non-consolidated senior interests and excludes risk-rated 5 loans.

The table below sets forth additional information relating to our portfolio as of March 31, 2024 (dollars in millions):

* Numbers presented may not foot due to rounding.

- (A) Our total portfolio represents the current principal amount on senior and mezzanine loans, net equity in RECOP I, which holds CMBS B-Piece investments, and net carrying value of our REO investments. Excludes loans that were fully written off.
For Senior Loan 9, the total whole loan is \$199.4 million, including (i) a fully funded senior mortgage loan of \$120.0 million, at an interest rate of S+2.25% and (ii) a mezzanine note with a commitment of \$79.4 million, of which \$74.4 million was funded as of March 31, 2024, at a fixed interest rate of 4.5%. The mezzanine note interest is payment-in-kind (“PIK Interest”), which is capitalized, compounded, and added to the outstanding principal balance of the respective loans.
For Senior Loan 11, the total whole loan is \$375.0 million, co-originated and co-funded by us and a KKR affiliate. Our interest is 50% of the loan or \$187.5 million, of which \$150.0 million in senior notes were syndicated to a third party. Post syndication, we retained a mezzanine loan with a commitment of \$37.5 million, fully funded as of March 31, 2024, at an interest rate of S+7.96%.
For Senior Loan 30, the total whole loan is \$107.0 million, including (i) a fully funded senior mortgage loan of \$102.0 million, at an interest rate of S+3.06%, (ii) a senior mezzanine note with \$3.9 million funded as of March 31, 2024, at a fixed interest rate of 10.0% and (iii) a fully funded junior mezzanine note of \$0.8 million, at a fixed interest rate 10.0% with certain profit share provisions, as defined in the loan agreement.
For Senior Loan 63, the total whole loan is \$146.2 million, co-originated and co-funded by us and a KKR affiliate. Our interest is 31% of the loan or \$45.8 million, of which \$38.6 million in senior notes were syndicated to third party lenders. Post syndication, we retained a mezzanine loan with a commitment of \$7.2 million, fully funded as of March 31, 2024, at an interest rate of S+13.02%.
- (B) Total Whole Loan represents total commitment of the entire whole loan originated. Committed Principal Amount includes participations by KKR affiliated entities and third parties that are syndicated/sold.
- (C) Net equity reflects (i) the amortized cost basis of our loans, net of borrowings; and (ii) the investment amount of CMBS B-Pieces and REO, net of borrowings.
- (D) Weighted average is weighted by the current principal amount for our senior and mezzanine loans and by investment amount of RECOP I CMBS B-Pieces. Risk-rated 5 loans are excluded from the weighted average LTV.
- (E) Coupon expressed as spread over Term SOFR.
- (F) Max remaining term (years) assumes all extension options are exercised, if applicable.
- (G) Loan Per SF / Unit / Key is based on the current principal amount divided by the current SF / Unit / Key. For Senior Loans 2, 3, 6, 18, 23, 26, 36, 48, 49, and 67, Loan Per SF / Unit / Key is calculated as the total commitment amount of the loan divided by the proposed SF / Unit / Key.
- (H) For senior loans, LTV is generally based on the initial loan amount divided by the as-is appraised value as of the date the loan was originated; for mezzanine loans, LTV is based on the initial balance of the whole loan divided by the as-is appraised value as of the date the loan was originated; for RECOP I CMBS B-Pieces, LTV is based on the weighted average LTV of the underlying loan pool at issuance. Weighted Average LTV excludes risk-rated 5 loans.
For Senior Loans 2, 3, 6, 18, 23, 26, 36, 48, 49, and 67, LTV is calculated as the total commitment amount of the loan divided by the as-stabilized value as of the date the loan was originated.
For senior loans where an appraisal has been obtained post origination, the LTVs subsequently presented are based on the current principal amount divided by the as-is appraised value as of the new appraisal date. Senior loans with updated LTV include: Senior Loan 17 (64%); Senior Loan 21 (64%); Senior Loan 22 (78%); Senior Loan 24 (66%); Senior Loan 27 (64%); Senior Loan 31 (57%); Senior Loan 32 (75%); Senior Loan 37 (83%); Senior Loan 43 (63%); and Senior Loan 67 (61%).
- (I) Senior loans include senior mortgages and similar credit quality investments, including junior participations in our originated senior loans for which we have syndicated the senior participations and retained the junior participations for our portfolio and excludes vertical loan participations.
- (J) For Senior Loan 49, the total whole loan facility is \$142.5 million co-originated and co-funded by us and a KKR affiliate. Our interest was 50% of the facility, or \$71.2 million. The facility is comprised of individual cross-collateralized whole loans. As of March 31, 2024, there were four underlying senior loans in the facility with a commitment of \$71.2 million and outstanding principal of \$64.2 million
- (K) Represents our investment in an aggregator vehicle alongside RECOP I that invests in CMBS B-Pieces. Committed principal represents our total commitment to the aggregator vehicle whereas current principal represents the current funded amount.

Portfolio Surveillance and Credit Quality

Our Manager actively manages our portfolio and assesses the risk of any deterioration in credit quality by quarterly evaluating the performance of the underlying property, the valuation of comparable assets as well as the financial wherewithal of the associated borrower. Our loan documents generally give us the right to receive regular property, borrower and guarantor financial statements; approve annual budgets and tenant leases; and enforce loan covenants and remedies. In addition, our Manager evaluates the macroeconomic environment, prevailing real estate fundamentals and micro-market dynamics where the underlying property is located. Through site inspections, local market experts and various data sources, as part of its risk assessment, our Manager monitors criteria such as new supply and tenant demand, market occupancy and rental rate trends, and capitalization rates and valuation trends.

We maintain a robust asset management relationship with our borrowers and have utilized these relationships to maximize the performance of our portfolio, including during periods of volatility.

We believe our loan sponsors are generally committed to supporting assets collateralizing our loans through additional equity investments, and that we will benefit from our long-standing core business model of originating senior loans collateralized by large assets in major markets with experienced, well-capitalized institutional sponsors. While we believe the principal amounts of our loans are generally adequately protected by underlying collateral value, there is a risk that we will not realize the entire principal value of certain investments.

In addition to ongoing asset management, our Manager performs a quarterly review of our portfolio whereby each loan is assigned a risk rating of 1 through 5, from lowest risk to highest risk. Our Manager is responsible for reviewing, assigning and updating the risk ratings for each loan at least once per quarter. The risk ratings are based on many factors, including, but not limited to, underlying real estate performance, values of comparable properties, durability and quality of property cash flows, sponsor experience and financial wherewithal, and the existence of a risk-mitigating loan structure. Additional key considerations include debt service coverage ratios, real estate and credit market dynamics, and risk of default or principal loss. In performing this review and assigning a risk rating with respect to each loan, our Manager assesses these various factors holistically and considers these factors on a case-by-case basis, determining whether to give additional weight to any of these factors based upon the specific facts and circumstances of each loan. Based on a five-point scale, our loans are rated "1" through "5," from less risk to greater risk, which ratings are defined as follows: 1 (Very Low Risk); 2 (Low Risk); 3 (Medium Risk); 4 (High Risk/Potential for Loss); and 5 (Impaired/Loss Likely).

As of March 31, 2024, the average risk rating of our loan portfolio was 3.2, weighted by total loan exposure, consistent with that as of December 31, 2023.

Risk Rating	March 31, 2024				December 31, 2023			
	Number of Loans ^(A)	Carrying Value	Total Loan Exposure ^(B)	Total Loan Exposure %*	Number of Loans ^(A)	Carrying Value	Total Loan Exposure ^(B)	Total Loan Exposure %*

*Numbers presented may not foot due to rounding.

(A) Excludes fully written off risk-rated 5 loans.

(B) In certain instances, KREF finances its loans through the non-recourse sale of a senior interest that is not included in the condensed consolidated financial statements. Total loan exposure includes the entire loan KREF originated and financed, including \$188.6 million of such non-consolidated interests as of March 31, 2024 and December 31, 2023.

In January 2023, we modified a risk-rated 5 senior office loan located in Philadelphia, PA, with an outstanding principal balance of \$161.0 million. The terms of the modification included, among others, a \$25.0 million principal repayment and a restructure of the \$136.0 million senior loan (after the \$25.0 million repayment) into (i) a \$116.5 million committed senior mortgage loan (with \$5.5 million in unfunded commitment) and (ii) a \$25.0 million junior mezzanine note. The restructured senior loan earns a coupon rate of S+2.75% and has a new term of up to four years, assuming all extension options are exercised. The \$25.0 million junior mezzanine note is subordinate to a new \$41.5 million committed senior mezzanine note held by the sponsor (with \$16.5 million in unfunded commitment) and was deemed uncollectible and written off in December 2022. The loan modification was accounted for as a new loan for GAAP purposes. The restructured senior loan with an outstanding principal balance of \$114.3 million was risk-rated 3 as of March 31, 2024.

In June 2023, we modified a risk-rated 5 senior office loan located in Minneapolis, MN, with an outstanding principal balance of \$194.4 million. The terms of the modification included, among others, a restructure of the \$194.4 million senior loan into (i) a \$120.0 million senior mortgage loan (fully funded) and (ii) a \$79.4 million mezzanine note (with \$5.0 million in unfunded commitment). The restructured senior loan earns a coupon rate of S+2.25% and the mezzanine note earns a fixed 4.5% PIK interest rate. Post modification, the whole loan's maximum maturity is July 2025, assuming all extension options are exercised. The restructured whole loan with an outstanding principal balance of \$194.4 million was risk-rated 5 as of March 31, 2024.

In September 2023, we modified a risk-rated 4 senior office loan located in Chicago, IL, with an outstanding principal balance of \$118.4 million. The terms of the modification included, among others, a \$15.0 million principal repayment, a \$15.0 million reduction in unfunded loan commitment, and a restructure of the \$103.4 million senior loan (after the \$15.0 million repayment) into (i) a \$105.0 million committed senior mortgage loan (with \$16.6 million in unfunded commitment) and (ii) a \$15.0 million subordinated note. The restructured senior loan earns a coupon rate of S+2.25% and has a new term of five years. The \$15.0 million subordinated note is subordinate to a new \$18.5 million sponsor interest and was deemed uncollectible and written off. The loan modification was accounted for as a new loan for GAAP purposes. The restructured senior loan with an outstanding principal balance of \$88.4 million was risk-rated 3 as of March 31, 2024.

CMBS B-Piece Investments

Our current CMBS exposure is through RECOP I, an equity method investment. Our Manager has processes and procedures in place to monitor and assess the credit quality of our CMBS B-Piece investments and promote the regular and active management of these investments. This includes reviewing the performance of the real estate assets underlying the loans that collateralize the investments and determining the impact of such performance on the credit and return profile of the investments. Our Manager holds monthly surveillance calls with the special servicer of our CMBS B-Piece investments to monitor the performance of our portfolio and discuss issues associated with the loans underlying our CMBS B-Piece investments. At each meeting, our Manager is provided with a due diligence submission for each loan underlying our CMBS B-Piece investments, which includes both property- and loan-level information. These meetings assist our Manager in monitoring our portfolio, identifying any potential loan issues, determining if a re-underwriting of any loan is warranted and examining the timing and severity of any potential losses or impairments.

Valuations for our CMBS B-Piece investments are prepared using inputs from an independent valuation firm and confirmed by our Manager via quotes from two or more broker-dealers that actively make markets in CMBS. As part of the quarterly valuation process, our Manager also reviews pricing indications for comparable CMBS and monitors the credit metrics of the loans that collateralize our CMBS B-Piece investments.

Total Financing

Our financing arrangements include our term loan facility, term lending agreements, collateralized loan obligations, secured term loan, warehouse facility, asset specific financing, corporate revolving credit agreement ("Revolver"), non-consolidated senior interest (collectively "Non-Mark-to-Market Financing Sources") and master repurchase agreements.

Our Non-Mark-to-Market Financing Sources, which accounted for 78% of our total financing as of March 31, 2024, are not subject to credit or capital markets mark-to-market provisions. The remaining 22% of our total financing, which is primarily comprised of three master repurchase agreements, are only subject to credit marks.

We continue to expand and diversify our financing sources, especially those sources that provide non-mark-to-market financing, reducing our exposure to market volatility.

The following table summarizes our financing agreements (dollars in thousands):

	Non-/Mark-to-Market	March 31, 2024			December 31, 2023	
		Borrowings			Collateral	Borrowings
		Maximum Facility Size ^(A)	Outstanding Principal	Available ^(B)	Outstanding Principal	Outstanding Principal
Master Repurchase Agreements	Mark-to-Credit	\$ 2,000,000	\$ 1,335,112	\$ 53,049	\$ 2,017,258	\$ 1,477,227

Total leverage		8,712,994	5,816,426	513,552		6,079,816
Non-consolidated Senior Interests	Non-Mark-to-Market	188,611	188,611	—	188,611	188,611
Total		\$ 8,901,605	\$ 6,005,037	\$ 513,552		\$ 6,268,427

(A) Maximum facility size represents the largest amount of borrowings available under a given facility once sufficient collateral assets have been approved by the lender and pledged by us.

(B) Available borrowings represents the undrawn amount we could draw under the terms of each credit facility, based on collateral already approved and pledged.

Master Repurchase Agreements

We utilize master repurchase facilities to finance the origination of senior loans. After a mortgage asset is identified by us, the lender agrees to advance a certain percentage of the principal of the mortgage to us in exchange for a secured interest in the mortgage. We have not received any margin calls on any of our master repurchase facilities to date.

Repurchase agreements effectively allow us to borrow against loans and participations that we own in an amount generally equal to (i) the market value of such loans and/or participations multiplied by (ii) the applicable advance rate. Under these agreements, we sell our loans and participations to a counterparty and agree to repurchase the same loans and participations from the counterparty at a price equal to the original sales price plus an interest factor. The transaction is treated as a secured loan from the financial institution for GAAP purposes. During the term of a repurchase agreement, we receive the principal and interest on the related loans and participations and pay interest to the lender under the master repurchase agreement. At any point in time, the amounts and the cost of our repurchase borrowings will be based upon the assets being financed—higher risk assets will result in lower advance rates (i.e., levels of leverage) at higher borrowing costs and vice versa. In addition, these facilities include various financial covenants and limited recourse guarantees, including those described below.

Each of our existing master repurchase facilities includes "credit mark-to-market" features. "Credit mark-to-market" provisions in repurchase facilities are designed to keep the lenders' credit exposure generally constant as a percentage of the underlying collateral value of the assets pledged as security to them. If the credit underlying collateral value decreases, the gross amount of leverage available to us will be reduced as our assets are marked-to-market, which would reduce our liquidity. The lender under the applicable repurchase facility sets the valuation and any revaluation of the collateral assets in its sole, good faith discretion. As a contractual matter, the lender has the right to reset the value of the assets at any time based on then-current market conditions, but the market convention is to reassess valuations on a monthly, quarterly and annual basis using the financial information delivered pursuant to the facility documentation regarding the real property, borrower and guarantor under such underlying loans. Generally, if the lender determines (subject to certain conditions) that the market value of the collateral in a repurchase transaction has decreased by more than a defined minimum amount, the lender may require us to provide additional collateral or lead to margin calls that may require us to repay all or a portion of the funds advanced. We closely monitor our liquidity and intend to maintain sufficient liquidity on our balance sheet in order to meet any margin calls in the event of any significant decreases in asset values. As of March 31, 2024, the weighted average haircut under our repurchase agreements was 33.8% (or 31.2%, if we had borrowed the maximum amount approved by its repurchase agreement counterparties as of such dates). In addition, our existing master repurchase facilities are not entirely term-matched financings and may mature before our CRE debt investments that represent underlying collateral to those financings. As we negotiate renewals and extensions of these liabilities, we may experience lower advance rates and higher pricing under the renewed or extended agreements.

Term Lending Agreements

In 2018, we entered into a \$200.0 million loan financing facility with BMO Harris Bank (the "BMO Facility"); the borrowing capacity was increased to \$300.0 million in 2019. The facility provides financing on a non-mark-to-market basis with match-term up to five years with partial recourse to us.

In 2019, we entered into a Master Repurchase and Securities Contract Agreement ("KREF Lending V Facility") with Morgan Stanley Mortgage Capital Holdings LLC ("Administrative Agent"), as administrative agent on behalf of Morgan Stanley Bank, N.A. ("Initial Buyer"), which provides non-mark-to-market financing. In 2023, the current stated maturity was extended to June 2024, subject to two additional one-year extension options, which we may exercise upon the satisfaction of certain customary conditions and thresholds. The Initial Buyer subsequently syndicated a portion of the facility to multiple financial institutions. As of March 31, 2024, the Initial Buyer held 22.7% of the total commitment under the facility.

In 2021, we entered into a \$500.0 million Master Repurchase and Securities Contract Agreement with a financial institution ("KREF Lending IX Facility"); the borrowing capacity was increased to \$750.0 million, then further increased to \$1.0 billion in 2022. The facility, which provides financing on a non-mark-to-market basis with partial recourse to us, has a three-year draw period and match-term to the underlying loans.

In 2022, we entered into a \$350.0 million Master Repurchase Agreement and Securities Contract with a financial institution ("KREF Lending XII Facility"). The facility, which provides financing on a non-mark-to-market basis with partial recourse to KREF, has a two-year draw period and match-term to the underlying loans. In addition, we have the option to increase the facility amount to \$500.0 million.

Term Loan Facility

In 2018, we entered into a term loan financing agreement with third party lenders for an initial borrowing capacity of \$200.0 million that was increased to \$1.0 billion ("Term Loan Facility"). The facility provides us with asset-based financing on a non-mark-to-market basis with match-term up to five years, with additional two-year extension available, and is non-recourse to us.

Warehouse Facility

In 2020, we entered into a \$500.0 million Loan and Security Agreement with HSBC Bank USA, National Association ("HSBC Facility"). In 2023, we extended the facility maturity date to March 2026. The facility provides warehouse financing on a non-mark-to-market basis with partial recourse to us.

Asset Specific Financing

In 2022, we entered into a \$100.0 million loan financing facility with a financial institution ("KREF Lending XI Facility"). The facility provides non-recourse match-term asset-based financing on a non-mark-to-market basis.

In 2022, we entered into a \$265.6 million loan financing facility with a financial institution ("KREF Lending XIII Facility"). The facility provides non-recourse match-term asset-based financing on a non-mark-to-market basis.

In 2022, we entered into a \$125.0 million loan financing facility with a financial institution ("KREF Lending XIV Facility"). The facility provides non-recourse match-term asset-based financing on a non-mark-to-market basis.

Revolving Credit Agreement

In 2022, we upsized our corporate revolving credit agreement ("Revolver"), administered by Morgan Stanley Senior Funding, Inc., to \$610.0 million and extended the maturity date to March 2027. We may use our Revolver as a source of financing, which is designed to provide short-term liquidity to originate or de-lever loans, pay operating expenses and borrow amounts for general corporate purposes. Our Revolver is secured by corporate level guarantees and includes net equity interests in the investment portfolio.

Collateralized Loan Obligations

In 2021, we financed a pool of loan participations from our existing loan portfolio through a managed collateralized loan obligation ("CLO" or "KREF 2021-FL2") and, in 2022, we financed a pool of loan participations from our existing multifamily loan portfolio through a managed CLO ("KREF 2022-FL3"). The CLOs provide us with match-term financing on a non-mark-to-market and non-recourse basis.

The following table outlines the CLO collateral assets and respective borrowing (dollars in thousands):

	March 31, 2024					December 31, 2023		
	Facility				Collateral ^(A)		Facility	
	Wtd. Avg. Term ^(B)	Maximum Facility Size	Outstanding Principal	Carrying Value	Wtd. Avg. Funding Cost ^(C)	Outstanding Principal	Carrying Value	Carrying Value
KREF 2021-FL2	February 2039	\$ 1,095,250	\$ 1,095,250	\$ 1,095,189	6.8%	\$ 1,300,000	\$ 1,285,619	\$ 1,095,128
KREF 2022-FL3	February 2039	847,500	847,500	847,380	7.1	1,000,000	991,272	847,043
Total		\$ 1,942,750	\$ 1,942,750	\$ 1,942,569	6.9%	\$ 2,300,000	\$ 2,276,891	\$ 1,942,171

- (A) Collateral loan assets represent 32.0% of the principal of our commercial real estate loans as of March 31, 2024. As of March 31, 2024, 100% of KREF loans financed through the CLOs are floating-rate loans.
- (B) The term of the CLO notes represents the rated final distribution date. Repayments of CLO notes are dependent on timing of underlying collateral loan asset repayments post reinvestment period.
- (C) Including deferred financing costs and applicable index in effect as of March 31, 2024. Average weighted by the outstanding principal of the facility.

Non-Consolidated Senior Interests

In certain instances, we finance our loans through the non-recourse sale of a senior loan interest that is not included in our condensed consolidated financial statements. These non-consolidated senior interests provide structural leverage on a non-mark-to-market, match-term basis for our net investments, which are typically reflected in the form of mezzanine loans or other subordinate interests on our condensed consolidated balance sheet and in our condensed consolidated statement of income.

The following table details the subordinate interests retained on our balance sheet and the related non-consolidated senior interests (dollars in thousands):

Non-Consolidated Senior Interests	March 31, 2024					
	Count	Principal Balance	Carrying Value	Wtd. Avg. Yield/Cost	Guarantee	Wtd. Avg. Term
Total loan	2	\$ 233,278	n.a	S + 3.6%	n.a.	January 2026
Senior participation	2	188,611	n.a	S + 2.3%	n.a.	January 2026
Interests retained		44,667		S + 8.8%		January 2026

Secured Term Loan

In 2020, we entered into a \$300.0 million secured term loan at a price of 97.5%. The secured term loan is partially amortizing, with an amount equal to 1.0% per annum of the principal balance due in quarterly installments. In 2021, we completed a \$52.2 million add-on, for an aggregate principal amount of \$350.0 million, which was issued at par. In 2023, the secured term loan was amended to transition the benchmark rate from LIBOR to SOFR. The new secured term loan bears coupon interest at Adjusted Term SOFR, as defined in the secured term loan agreements, plus a 3.50% margin, and is subject to a 0.50% SOFR floor.

The secured term loan matures on September 1, 2027 and contains restrictions relating to liens, asset sales, indebtedness, investments and transactions with affiliates. Our secured term loan is secured by corporate level guarantees and does not include asset-based collateral. Refer to Notes 2 and 7 to our condensed consolidated financial statements for additional discussion of our secured term loan.

Covenants—Each of our repurchase facilities, term lending agreements, warehouse facility and our Revolver contain customary terms and conditions, including, but not limited to, negative covenants relating to restrictions on our operations with respect to our status as a REIT, and financial covenants, such as:

- a trailing four quarter interest income to interest expense ratio covenant (1.4 to 1.0);
- a consolidated tangible net worth covenant (75.0% of the aggregate net cash proceeds of any equity issuances made and any capital contributions received by us and KKR Real Estate Finance Holdings L.P. (our "Operating Partnership") or up to approximately \$1,307.7 million, depending on the agreement; and
- a cash liquidity covenant (the greater of \$10.0 million or 5.0% of our recourse indebtedness);
- a total indebtedness covenant (83.3% of our Total Assets, as defined in the applicable financing agreements)

With respect to our secured term loan, we are required to comply with customary loan covenants and event of default provisions that include, but are not limited to, negative covenants relating to restrictions on operations with respect to our status as a REIT, and financial covenants. Such financial covenants include a minimum consolidated tangible net worth of \$650.0 million and a maximum total debt to total assets ratio of 83.3% (the "Leverage Covenant").

As of March 31, 2024, we were in compliance with the covenants of our financing facilities.

Guarantees—In connection with our financing arrangements including; master repurchase agreements, our term lending agreements, and our asset specific financing, our Operating Partnership has entered into a limited guarantee in favor of each lender, under which our Operating Partnership guarantees the obligations of the borrower under the respective financing agreement (i) in the case of certain defaults, up to a maximum liability of 25.0% of the then-outstanding repurchase price of the eligible loans, participations or securities, as applicable, or (ii) up to a maximum liability of 100.0% in the case of certain "bad boy" defaults. The borrower in each case is a special purpose subsidiary of ours. In addition, some guarantees include certain full recourse insolvency-related trigger events.

With respect to our Revolver, amounts borrowed are full recourse to certain guarantor wholly-owned subsidiaries of ours.

Real Estate Owned and Joint Venture

In 2015, we originated a \$177.0 million senior loan secured by a retail property in Portland, Oregon. In 2021, we took title to the retail property; such acquisition was accounted for as an asset acquisition under ASC 805. Accordingly, we recognized the property on our balance sheet as REO with a carrying value of \$78.6 million, which included the estimated fair value of the property. In addition, we assumed \$2.0 million in other net assets of the REO.

Concurrently with taking the title to the REO asset, we contributed a portion of the REO asset to a joint venture (the "REO JV") with a third party local development operator ("JV Partner"), whereby we have a 90% interest and the JV Partner has a 10% interest. As of March 31, 2024, the REO JV held REO assets with a net carrying value of \$72.8 million. We have priority of distributions up to \$79.8 million before the JV Partner can participate in the economics of the REO JV.

In 2019, we originated a \$182.6 million senior loan secured by an office portfolio in Philadelphia, PA. In 2022, this loan was placed on nonaccrual status and subsequent interest collections were accounted for under the cost recovery method. As of September 30, 2023, the loan had a risk rating of 5 with an amortized cost of \$151.1 million. On December 22, 2023, we received a \$6.0 million partial repayment and then took title to the office property through a deed-in-lieu of foreclosure. The transaction was accounted for as an asset acquisition under ASC 805. Accordingly, we recorded the property with its net assets on the Condensed Consolidated Balance Sheet with an estimated fair value of \$86.4 million, which included \$1.3 million of cash received and \$76.5 million, \$24.6 million and \$15.9 million allocated to REO held for sale, lease intangible and other assets, and leasing and other liabilities, respectively. As a result, we recognized a \$58.7 million loan write-off for the difference between the carrying value of the foreclosed loan and the fair value of the REO's net assets. As of March 31, 2024, the REO's assets and liabilities met the criteria to be classified as held for sale under ASC 360. As such, depreciation on the building and building improvements was suspended.

Results of Operations

Three Months Ended March 31, 2024 Compared to Three Months Ended December 31, 2023

The following table summarizes the changes in our results of operations for three months ended March 31, 2024 and December 31, 2023 (dollars in thousands, except per share data):

	Three Months Ended		Increase (Decrease)	
	March 31, 2024	December 31, 2023	Dollars	Percentage
Net Interest Income				
Interest income	\$ 151,620	\$ 165,024	\$ (13,404)	(8)%

Dividends Declared per Share of Common Stock	\$ 0.25	\$ 0.43	\$ (0.18)	(42)

Net Interest Income

Net interest income decreased by \$7.3 million during the three months ended March 31, 2024, as compared to the preceding three-month period. This decrease was primarily due to the suspension of interest income accrual on loans accounted for under the cost recovery method and a decrease in prepayment fees compared to the preceding three-month period. During the three months ended March 31, 2024, \$2.5 million of interest collections on nonaccrual loans were applied as a reduction to the loan amortized cost.

We recognized \$4.7 million of deferred loan fees and origination discounts accreted into interest income during the three months ended March 31, 2024, as compared to \$5.9 million for the preceding period. We recorded \$5.0 million of deferred financing costs amortization into interest expense during the three months ended March 31, 2024, as compared to \$5.7 million for the preceding period.

Other Income

Total other income increased by \$3.4 million during the three months ended March 31, 2024, as compared to the preceding period. This increase was primarily due to a \$2.5 million increase in revenue from REO operations, inclusive of net income from the REO assets we acquired in December 2023.

Operating Expenses

Total operating expenses decreased by \$13.4 million during the three months ended March 31, 2024, as compared to the preceding period. This decrease was primarily due to a \$16.2 million change in the provision for credit losses, partially offset by a \$2.6 million increase in expenses from REO operations.

Three months ended March 31, 2024 Compared to Three months ended March 31, 2023

The following table summarizes the changes in our results of operations for the three months ended March 31, 2024 and 2023 (dollars in thousands, except per share data):

	Three Months Ended March 31,		Increase (Decrease)

Net Interest Income

Net interest income decreased by \$7.4 million, during the three months ended March 31, 2024, as compared to the corresponding period in the prior year. This decrease was primarily due to suspension of interest income accrual on loans accounted for under the cost recovery method for the three months ended March 31, 2024, as compared to the prior year period. During the three months ended March 31, 2024, \$2.5 million of interest collections on nonaccrual loans were applied as a cost reduction to the loan amortized cost.

We recognized \$4.7 million of deferred loan fees and origination discounts accreted into interest income during the three months ended March 31, 2024, as compared to \$5.9 million during the prior year period. We recorded \$5.0 million of deferred financing costs amortization into interest expense during the three months ended March 31, 2024, as compared to \$6.8 million during the prior year period.

Other Income

Total other income increased by \$3.0 million during the three months ended March 31, 2024, as compared to the prior year period. This increase was primarily due to a \$2.7 million increase in revenue from REO operations, inclusive of net income from the REO assets we acquired in December 2023.

Operating Expenses

Total operating expenses decreased by \$26.1 million during the three months ended March 31, 2024, as compared to the prior year period. This decrease was primarily due to a \$27.2 million change in the provision for credit losses and a \$1.8 million decrease in Manager incentive compensation. The decrease was partially offset by a \$2.8 million increase in expenses from REO operations.

Liquidity and Capital Resources

Overview

We have capitalized our business to date primarily through the issuance and sale of our common stock and preferred stock, borrowings from three master repurchase agreements, and borrowings from our Non-Mark-to-Market Financing Sources, which comprised of collateralized loan obligations, term lending agreements, term loan facility, secured term loan, asset specific financing, warehouse facility, corporate revolver and non-consolidated senior interests. Our Non-Mark-to-Market Financing Sources, which accounted for 78% of our total financing as of March 31, 2024, are not subject to credit or capital markets mark-to-market provisions. The remaining 22% of our total financing, which are comprised of three master repurchase agreements, are only subject to credit marks. We have not received any margin calls on our master repurchase agreements to date.

Our primary sources of liquidity include \$106.5 million of cash on our Condensed Consolidated Balance Sheet, \$450.0 million of available capacity on our corporate Revolver, \$63.6 million of available borrowings under our financing arrangements based on existing collateral, and cash flows from operations. In addition, we had \$108.4 million of unencumbered senior loans that can be financed, as of March 31, 2024. Our corporate Revolver and secured term loan are secured by corporate level guarantees and include net equity interests in the investment portfolio. We may seek additional sources of liquidity from syndicated financing, other borrowings (including borrowings not related to a specific investment) and future offerings of equity and debt securities.

Our primary liquidity needs include our ongoing commitments to repay the principal and interest on our borrowings and to pay other financing costs, financing our assets, meeting future funding obligations, making distributions to our stockholders, funding our operations that includes making payments to our Manager in accordance with the management agreement, and other general business needs. We believe that our cash position and sources of liquidity will be sufficient to meet anticipated requirements for financing, operating and other expenditures in both the short- and long-term, based on current conditions.

As described in Note 9 to our condensed consolidated financial statements, we have off-balance sheet arrangements related to VIEs that we account for using the equity method of accounting and in which we hold an economic interest or have a capital commitment. Our maximum risk of loss associated with our interests in these VIEs is limited to the carrying value of our investment in the entity and any unfunded capital commitments. As of March 31, 2024, we held \$35.1 million of interests in such entities, which does not include a remaining commitment of \$4.3 million to RECOP I that we are required to fund if called.

The banking sector and financial market recently witnessed significant volatility resulting from multiple bank failures. While we maintained no accounts at these failed banks, substantially all of our cash currently on deposit with other major financial institutions exceeds insured limits. We limit exposure relating to our short-term financial instruments by diversifying these financial instruments among various counterparties. Generally, deposits may be redeemed upon demand and are maintained with financial institutions with reputable credit and therefore we believe bear minimal credit risk.

To facilitate future offerings of equity, debt and other securities, we have in place an effective shelf registration statement (the “Shelf”) with the SEC. The amount of securities to be issued pursuant to this Shelf was not specified when it was filed and there is no specific dollar limit on the amount of securities we may issue. The securities covered by this Shelf include: (i) common stock, (ii) preferred stock, (iii) depository shares, (iv) debt securities, (v) warrants, (vi) subscription rights, (vii) purchase contracts, and (viii) units. The specifics of any future offerings, along with the use of proceeds of any securities offered, will be described in detail in a prospectus supplement, or other offering material, at the time of any offering.

We have also entered into an equity distribution agreement with certain sales agents, pursuant to which we may sell, from time to time, up to an aggregate sales price of \$100.0 million of our common stock, pursuant to a continuous offering program (the “ATM”), under the Shelf. Sales of our common stock made pursuant to the ATM may be made in negotiated transactions or transactions that are deemed to be “at the market” offerings as defined in Rule 415 under the Securities Act. During the three months ended March 31, 2024, we did not sell any shares of common stock under the ATM. As of March 31, 2024, \$93.2 million remained available for issuance under the ATM.

See Notes 5, 6, 7 and 10 to our condensed consolidated financial statements for additional details regarding our secured financing agreements, collateralized loan obligations, secured term loan and stock activity.

Debt-to-Equity Ratio and Total Leverage Ratio

The following table presents our debt-to-equity ratio and total leverage ratio:

	March 31, 2024	December 31, 2023
Debt-to-equity ratio ^(A)	2.1x	2.3x
Total leverage ratio ^(B)	4.1x	4.2x

(A) Represents (i) total outstanding debt agreements (excluding non-recourse facilities) and secured term loan, less cash to (ii) total permanent equity, in each case, at period end.

(B) Represents (i) total outstanding debt agreements, secured term loan, and collateralized loan obligations, less cash to (ii) total permanent equity, in each case, at period end.

Sources of Liquidity

Our primary sources of liquidity include cash and cash equivalents and available borrowings under our secured financing agreements, inclusive of our Revolver. Amounts available under these sources as of the date presented are summarized in the following table (dollars in thousands):

	March 31, 2024	December 31, 2023
Cash and cash equivalents	\$ 106,517	\$ 135,898
Available borrowings under revolving credit agreement	450,000	450,000
Available borrowings under master repurchase agreements	53,049	35,610
Available borrowings under term lending agreements	10,435	8,394
Available borrowings under asset specific financing	68	—
	<u>\$ 620,069</u>	<u>\$ 629,902</u>

We also had \$108.4 million and \$43.1 million of unencumbered senior loans that can be pledged to financing facilities subject to lender approval, as of March 31, 2024 and December 31, 2023, respectively. In addition to our primary sources of liquidity, we have the ability to access further liquidity through our ATM program and public offerings of debt and equity securities. Our existing loan portfolio also provides us with liquidity as loans are repaid or sold, in whole or in part, and the proceeds from repayment become available for us to invest.

Cash Flows

The following table sets forth changes in cash and cash equivalents for the three months ended March 31, 2024 and 2023 (dollars in thousands):

	Three Months Ended March 31,	
	2024	2023
Cash Flows From Operating Activities	\$ 34,488	\$ 41,635
Cash Flows From Investing Activities	236,756	(113,080)
Cash Flows From Financing Activities	(300,770)	87,143
Net Increase (Decrease) in Cash, Cash Equivalents, and Restricted Cash	<u>\$ (29,526)</u>	<u>\$ 15,698</u>

Cash Flows from Operating Activities

Our cash flows from operating activities were primarily driven by our net interest income, which is driven by the income generated by our investments less financing costs. The following table sets forth interest received from, and paid for, our investments for the three months ended March 31, 2024 and 2023 (dollars in thousands):

	Three Months Ended March 31,	
	2024	2023
Interest Received:		
Commercial real estate loans	\$ 147,237	\$ 145,188
	<u>147,237</u>	<u>145,188</u>
Interest Paid:		
Interest expense	108,407	95,339
Net interest collections	<u>\$ 38,830</u>	<u>\$ 49,849</u>

Our net interest collections were partially offset by cash used to pay management and incentive fees, as follows (dollars in thousands):

	Three Months Ended March 31,	
	2024	2023
Management Fees to affiliate	\$ 6,523	\$ 6,578
Incentive Fees to affiliate	—	1,811
Total management and incentive fee payments	<u>\$ 6,523</u>	<u>\$ 8,389</u>

Cash Flows from Investing Activities

Our cash flows from investing activities consisted of cash outflows to fund new loan originations and our commitments under existing loan investments, partially offset by cash inflows from the principal repayments and sale of our loan investments. During the three months ended March 31, 2024, we funded \$95.8 million of CRE loans and received \$334.7 million from repayments of CRE loans.

During the three months ended March 31, 2023, we funded \$201.9 million of CRE loans and received \$89.7 million from the repayments of CRE loans.

Cash Flows from Financing Activities

Our cash flows from financing activities were primarily driven by (i) repayments of \$382.1 million under our financing agreements and (ii) payment of \$35.1 million in dividends, partially offset by borrowing proceeds of \$118.8 million under our financing agreements during three months ended March 31, 2024.

During the three months ended March 31, 2023, our cash flows from financing activities were primarily driven by proceeds from borrowings under our financing agreements of \$162.4 million, partially offset by (i) repayments of \$39.6 million on borrowings under our financing agreements, and (ii) payment of \$35.0 million in dividends.

Contractual Obligations and Commitments

The following table presents our contractual obligations and commitments (including interest payments) as of March 31, 2024 (dollars in thousands):

	Total	Less than 1 year	1 to 3 years	3 to 5 years	Thereafter
Master Repurchase Facilities ^(A)	\$ 1,335,111	\$ 89,186	\$ 1,195,925	\$ 50,000	\$ —
Term Lending Agreements ^(A)	1,175,486	—	594,197	581,289	—
Warehouse Facility	—	—	—	—	—
Term Loan Facility	572,323	110,858	156,366	305,099	—
Asset Specific Facility	288,631	—	100,000	188,631	—
Revolver ^(B)	160,000	160,000	—	—	—
Total secured financing agreements	3,531,551	360,044	2,046,488	1,125,019	—
Collateralized Loan Obligations	1,942,750	—	—	—	1,942,750
Secured Term Loan	342,125	3,500	7,000	331,625	—
Interest payable ^(C)	1,427,245	418,293	698,695	310,257	—
Future funding obligations ^(D)	724,998	458,744	260,942	5,312	—
RECOP I commitment	4,324	4,324	—	—	—
Total	\$ 7,972,993	\$ 1,244,905	\$ 3,013,125	\$ 1,772,213	\$ 1,942,750

- (A) The allocation of repurchase facilities and term lending agreements is based on the earlier of (i) the maximum maturity of the underlying loans pledged as collateral or (ii) the maximum maturity of the respective financing agreements. Amounts borrowed are subject to a maximum 25.0% recourse limit.
- (B) Any amounts borrowed are full recourse to certain subsidiaries of KREF. Amounts are estimated based on the amount outstanding under the Revolver and the interest rate in effect as of March 31, 2024. This is only an estimate as actual amounts borrowed, the timing of repayments and interest rates may vary over time. The Revolver matures in March 2027.
- (C) The amounts are estimated by assuming the amounts outstanding under these facilities and the interest rates in effect as of March 31, 2024 will remain constant into the future. The actual amounts borrowed and rates may vary over time.
- (D) We have future funding obligations related to our investments in senior loans. These future funding obligations primarily relate to construction projects, capital improvements, tenant improvements and leasing commissions. Generally, funding obligations are subject to certain conditions that must be met, such as customary construction draw certifications, minimum debt service coverage ratios, minimal debt yield tests, or executions of new leases before advances are made to the borrower. As such, the allocation of our future funding obligations is based on the earlier of the expected funding or commitment expiration date.

We are required to pay our Manager a base management fee, an incentive fee and reimbursements for certain expenses pursuant to our management agreement. The table above does not include the amounts payable to our Manager under our management agreement as they are not fixed and determinable. See Note 14 to our condensed consolidated financial statements included in this Form 10-Q for additional terms and details of the fees payable under our management agreement.

As a REIT, we generally must distribute at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, to stockholders in the form of dividends to comply with the REIT provisions of the Code. Our taxable income does not necessarily equal our net income as calculated in accordance with GAAP, or our Distributable Earnings as described above under "Key Financial Measures and Indicators — Distributable Earnings".

Subsequent Events

Our subsequent events are detailed in Note 17 to our condensed consolidated financial statements.

Critical Accounting Policies and Use of Estimates

Our discussion and analysis of our financial condition and results of operations is based upon our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these condensed consolidated financial statements requires our Manager to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates. There have been no material changes to our Critical Accounting Policies and Use of Estimates described in our Annual Report on Form 10-K.

Allowance for Credit Losses

We originate and purchase CRE debt and related instruments generally to be held as long-term investments at amortized cost. We adopted ASU No. 2016-13, *Financial Instruments—Credit Losses*, and subsequent amendments (“ASU 2016-13”), which replaced the incurred loss methodology with an expected loss model known as the Current Expected Credit Loss (“CECL”) model. CECL amended the previous credit loss model to reflect our current estimate of all expected credit losses, not only based on historical experience and current conditions, but also by including reasonable and supportable forecasts incorporating forward-looking information. The measurement of expected credit losses under CECL is applicable to financial assets measured at amortized cost, and off-balance sheet credit exposures such as unfunded loan commitments. The allowance for credit losses required under ASU 2016-13 is deducted from the respective loans’ amortized cost basis on our Condensed Consolidated Balance Sheets. The allowance for credit losses attributed to unfunded loan commitments is included in “Other liabilities” on the Condensed Consolidated Balance Sheets.

We have implemented loan loss forecasting models for estimating expected life-time credit losses, at the individual loan level, for our commercial real estate loan portfolio. The CECL forecasting methods we use include (i) a probability of default and loss given default method using an underlying third-party CMBS/CRE loan database with historical loan losses from 1998 through 2023, and (ii) a probability weighted expected cash flow method, depending on the type of loan and the availability of relevant historical market loan loss data. We might use other acceptable alternative approaches in the future depending on, among other factors, the type of loan, underlying collateral, and availability of relevant historical market loan loss data.

We estimate the CECL allowance for our loan portfolio, including unfunded loan commitments, at the individual loan level. Significant inputs to our forecasting methods include (i) key loan-specific inputs such as vintage year, loan-term, underlying property type, geographic location, most recent appraisal, and expected timing and amount of future loan fundings, (ii) performance against the underwritten business plan and our internal loan risk rating and (iii) a macro-economic forecast.

These estimates may change in future periods based on available future macro-economic data and might result in a material change in our future estimates of expected credit losses for its loan portfolio. We consider the individual loan internal risk rating as the key credit quality indicator in assessing the CECL allowance. We perform a review, at least quarterly, of our loan portfolio at the individual loan level to determine the internal risk rating for each of our loans by assessing the risk factors of each loan, including, without limitation, LTV, debt yield, property type, geographic and local market dynamics, physical condition, cash flow volatility, leasing and tenant profile, loan structure and exit plan, and project sponsorship. Considering these factors, we rate our loans based on a five-point scale, "1" through "5", from less risk to greater risk.

For collateral dependent loans that we determine foreclosure of the collateral is probable, we measure the expected losses based on the difference between the fair value of the collateral and the amortized cost basis of the loan as of the measurement date. For collateral dependent loans where we determine foreclosure is not probable, we apply a practical expedient to estimate expected losses using the difference between the collateral’s fair value (less costs to sell the asset if repayment is expected through the sale of the collateral) and the amortized cost basis of the loan. A loan is determined to be collateral dependent if (i) a borrower or sponsor is experiencing financial difficulty, and (ii) the loan is expected to be substantially repaid through the sale of the underlying collateral; such determination requires the use of significant judgment and can be based on several factors subject to uncertainty. Considerations used in determination of financial difficulty may include, but are not limited to, whether the borrower’s operating cash flow is sufficient to cover the current and future debt service requirements, the borrower’s ability to refinance the loan, market liquidity and other circumstances that can affect the borrower’s ability to satisfy its contractual obligations under the loan agreement.

Refer to Note 2 to our condensed consolidated financial statements for the description of our significant accounting policies.

Recent Accounting Pronouncements

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires a public entity to disclose significant segment expenses and other segment items on an annual and interim basis and to provide in interim periods all disclosures about a reportable segment’s profit or loss and assets that are currently required annually. Public entities with a single reportable segment are required to provide the new disclosures and all the disclosures required under ASC 280. The guidance is effective for our 2024 annual reporting. The guidance is applied retrospectively to all periods presented in the financial statements, unless it is impracticable. We are evaluating the impact of ASU 2023-07.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We seek to manage our risks related to the credit quality of our assets, interest rates, liquidity, prepayment rates and market value, while at the same time seeking to provide an opportunity to stockholders to realize attractive risk-adjusted returns. While risks are inherent in any business enterprise, we seek to quantify and justify risks in light of available returns and to maintain capital levels consistent with the risks we undertake.

Credit Risk

Our investments are subject to credit risk, including the risk of default. The performance and value of our investments depend upon the sponsors' ability to operate the properties that serve as our collateral so that they produce cash flows adequate to pay interest and principal due to us. To monitor this risk, we review our investment portfolio and is in regular contact with the sponsors, monitoring performance of the collateral and enforcing our rights as necessary.

Inflation, rising interest rates and increasing costs may dampen consumer spending and slow corporate profit growth, which may negatively impact the value of underlying real estate collateral relating to our investments and impair our borrowers' ability to execute on their business plans and potentially their ability to perform under the terms of their loan obligations.

Credit Yield Risk

Credit yields measure the return demanded on financial instruments by the lending market based on their risk of default. Increasing supply of credit-sensitive financial instruments and reduced demand will generally cause the market to require a higher yield on such financial instruments, resulting in a lower price for the financial instruments we hold.

Interest Rate Risk

The composition of our investments is such that rising interest rates will increase our net income, while declining interest rates will generally decrease our net income. Rate floors relating to our loan portfolio may offset some of the impact from declining rates. There can be no assurance that we will continue to utilize rate floors. There can be no assurance of how our net income may be affected in future quarters, which will depend on, among other things, the interest rate environment and our then-current portfolio.

In light of increasing inflation in recent years, the U.S. Federal Reserve has raised interest rates eleven times since January 2022.

In addition to the risks related to fluctuations in cash flows and asset values associated with movements in interest rates, there is also the risk of non-performance on floating-rate assets. In the case of a significant increase in interest rates, the cash flows of the collateral real estate assets may not be sufficient to pay debt service due under our loans, which may contribute to non-performance or, in severe cases, default.

Notwithstanding the current period of relatively high interest rates, the U.S. Federal Reserve has indicated that it may decrease interest rates in 2024. In a period of declining interest rates, our interest income on floating-rate investments would generally decrease, while any decrease in the interest we are charged on our floating-rate debt may be subject to floors and may not compensate for such decrease in interest income. However, rate floors relating to our loan portfolio may offset some of the impact from declining rates. In addition, interest we are charged on our fixed-rate debt would not change.

As of March 31, 2024, our accruing loan portfolio and related portfolio financing by principal amount earned or paid a floating rate of interest indexed to Term SOFR. Accordingly, our interest income and expense will generally change directionally with index rates; however, in certain circumstances, rate floors relating to our loan portfolio may partially offset the impact from changing rates. As of March 31, 2024, a 50 basis point and a 100 basis point decrease in the index rates would decrease our expected cash flows by approximately \$1.0 million and \$2.1 million, or (\$0.02) and (\$0.03) per common share, respectively, for the following three-month period. Conversely, a 50 basis point and a 100 basis point increase in the index rates would increase our expected cash flows by approximately \$1.0 million and \$2.1 million, or \$0.02 and \$0.03 per common share, respectively, for the same period.

Prepayment Risk

Prepayment risk is the risk that principal will be repaid at an earlier date than anticipated, potentially causing the return on certain investments to be less than expected. As we receive prepayments of principal on our assets, any premiums paid on such assets are amortized against interest income. In general, an increase in prepayment rates accelerates the amortization of purchase premiums, thereby reducing the interest income earned on the assets. Conversely, discounts on such assets are accreted into interest income. In general, an increase in prepayment rates accelerates the accretion of purchase discounts, thereby increasing the interest income earned on the assets. Additionally, we may not be able to reinvest the principal repaid at the same or higher yield of the original investment.

Higher interest rates imposed by the Federal Reserve may lead to a decrease in prepayment speeds and an increase in the number of our borrowers who exercise extension options, which could extend beyond the term of certain secured financing agreements we use to finance our loan investments. This could have a negative impact on our results of operations, and in some situations, we may be forced to sell assets to maintain adequate liquidity, which could cause us to incur losses.

Financing Risk

We finance our target assets using our repurchase facilities, our term lending agreements, our Term Loan Facility, Warehouse Facility, Asset Based Financing, secured term loan, collateralized loan obligations and through syndicating senior participations in our originated senior loans. Over time, as market conditions change, we may use other forms of leverage in addition to these methods of financing. Weakness or volatility in the financial markets, the CRE and mortgage markets or the economy generally could adversely affect one or more of our lenders or potential lenders and could cause one or more of our lenders or potential lenders to be unwilling or unable to provide us with financing, or to decrease the amount of our available financing through a market to market, or to increase the costs of that financing.

Real Estate Risk

The market values of commercial real estate assets are subject to volatility and may be adversely affected by a number of factors, including, but not limited to, national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions; changes or continued weakness in specific industry segments; construction quality, age and design; demographic factors; and retroactive changes to building or similar codes. In addition, decreases in property values reduce the value of the collateral and the potential proceeds available to a borrower to repay the underlying loans, which could also cause us to suffer losses.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that the information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired controls.

As of March 31, 2024, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of March 31, 2024, our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) of the Exchange Act) occurred during the quarter ended March 31, 2024 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The section entitled “*Litigation*” appearing in Note 13 of our condensed consolidated financial statements included in this Form 10-Q is incorporated herein by reference.

ITEM 1A. RISK FACTORS

For information regarding the risk factors that could affect the Company’s business, results of operations, financial condition and liquidity, see the information under Part I, Item 1A. “Risk Factors” in the Form 10-K, which is accessible on the SEC’s website at www.sec.gov. There have been no material changes to the risk factors previously disclosed in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

Under the Company's current share repurchase program, which was originally announced on May 9, 2018, and subsequently extended and/or increased on June 17, 2019, June 15, 2020 and February 3, 2023, we may repurchase up to an aggregate of \$100.0 million of our common stock effective as of February 3, 2023, of which up to \$50.0 million may be repurchased under a pre-set trading plan meeting the requirements of Rule 10b5-1 under the Exchange Act, and provide for repurchases of common stock when the market price per share is below book value per share (calculated in accordance with GAAP as of end of the most recent quarterly period for which financial statements are available), and the remaining \$50.0 million may be used for repurchases in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Exchange Act, in privately negotiated transactions or otherwise. The timing, manner, price and amount of any common stock repurchases will be determined by us in our discretion and will depend on a variety of factors, including legal requirements, price and economic considerations, and market conditions. The program does not require us to repurchase any specific number of shares of common stock. The program does not have an expiration date and may be suspended, modified or discontinued at any time.

We did not repurchase any shares of our common stock during the three months ended March 31, 2024. As of March 31, 2024, we had \$100.0 million of remaining capacity to repurchase shares under the program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit Number	Exhibit Description
31.1	<u>Certificate of Matthew A. Salem, Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
31.2	<u>Certificate of Kendra L. Decious, Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
32.1	<u>Certificate of Matthew A. Salem, Chief Executive Officer, pursuant to Section 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (furnished herewith).</u>
32.2	<u>Certificate of Kendra L. Decious, Chief Financial Officer, pursuant to Section 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (furnished herewith).</u>
