- (1) Our total portfolio represents the current principal amount on senior and mezzanine loans, net equity in RECOP I, which holds CMBS B-Piece investments, and net carrying value of our sole REO investment. Excludes one mezzanine loan with an outstanding principal of \$5.5 million that was fully written off.

For Senior Loan 9, the total whole loan is \$199.4 million, including (i) a fully funded senior mortgage loan of \$120.0 million, at an interest rate of S+2.25% and (ii) a mezzanine note with a commitment of \$79.4 million, of which \$74.4 million was funded as of September 30, 2023, at a fixed interest rate of 4.5%. The mezzanine note interest is payment-in-kind (“PIK Interest”), which is capitalized, compounded, and added to the outstanding principal balance of the respective loans.

For Senior Loan 13, the total whole loan is \$375.0 million, co-originated and co-funded by us and a KKR affiliate. Our interest is 50% of the loan or \$187.5 million, of which \$150.0 million in senior notes were syndicated to a third party. Post syndication, we retained a mezzanine loan with a commitment of \$10.1 million, of which \$7.0 million was funded as of September 30, 2023, at an interest rate of S+13.02%
- (2) Total Whole Loan represents total commitment of the entire whole loan originated. Committed Principal Amount includes participations by KKR affiliated entities and third parties that are syndicated/sold.
- (3) Net equity reflects (i) the amortized cost basis of our loans, net of borrowings; and (ii) the cost basis of our investments in RECOP I and REO.
- (4) Weighted average is weighted by the current principal amount for our senior and mezzanine loans and by net equity for our RECOP I CMBS B-Pieces. Risk-rated 5 loans are excluded from the weighted average LTV.
- (5) Coupon expressed as spread over Term SOFR.
- (6) Max remaining term (years) assumes all extension options are exercised, if applicable.
- (7) Loan Per SF / Unit / Key is based on the current principal amount divided by the current SF / Unit / Key. For Senior Loans 2, 3, 6, 21, 26, 29, 31, 41, 53, and 71, Loan Per SF / Unit / Key is calculated as the total commitment amount of the loan divided by the proposed SF / Unit / Key.
- (8) For senior loans, LTV is generally based on the initial loan amount divided by the as-is appraised value as of the date the loan was originated or by the current principal amount as of the date of the most recent as-is appraised value; for mezzanine loans, LTV is based on the current balance of the whole loan divided by the as-is appraised value as of the date the loan was originated; for RECOP I CMBS B-Pieces, LTV is based on the weighted average LTV of the underlying loan pool at issuance. Weighted Average LTV excludes risk rated-5 loans.

For Senior Loan 19, LTV is based on the current principal amount divided by the adjusted appraised gross sellout value net of sales cost.

For Senior Loans 2, 3, 6, 21, 26, 29, 31, 41, 53, and 71, LTV is calculated as the total commitment amount of the loan divided by the as-stabilized value as of the date the loan was originated.
- (9) Senior loans include senior mortgages and similar credit quality investments, including junior participations in our originated senior loans for which we have syndicated the senior participations and retained the junior participations for our portfolio and excludes vertical loan participations.
- (10) For Senior Loan 29, the total whole loan facility is \$242.0 million, co-originated and co-funded by us and a KKR affiliate. Our interest was 50% of the facility or \$121.0 million. Key Definitions

“Distributable Earnings”: Commencing for all periods ending on or after December 31, 2020, the Company has elected to present Distributable Earnings, a measure that is not prepared in accordance with GAAP, as a supplemental basis to KREF’s net income as determined in accordance with GAAP as the Company believes it would be useful to investors in evaluating the Company’s operating performance and its ability to pay its dividends. Distributable Earnings replaces the Company’s prior presentation of Core Earnings, and Core Earnings presentations from prior reporting periods have been recast as Distributable Earnings.

The Company defines Distributable Earnings as net income (loss) attributable to stockholders or, without duplication, owners of the Company's subsidiaries, computed in accordance with GAAP, including realized losses not otherwise included in GAAP net income (loss) and excluding (i) non-cash equity compensation expense, (ii) depreciation and amortization, (iii) any unrealized gains or losses or other similar non-cash items that are included in net income for the applicable reporting period, regardless of whether such items are included in other comprehensive income or loss, or in net income, and (iv) one-time events pursuant to changes in GAAP and certain material non-cash income or expense items agreed upon after discussions between the Company’s Manager and board of directors and after approval by a majority of the independent directors. The exclusion of depreciation and amortization from the calculation of Distributable Earnings only applies to debt investments related to real estate to the extent the Company forecloses upon the property or properties underlying such debt investments.

Distributable Earnings should not be considered as a substitute for GAAP net income or taxable income. The Company cautions readers that its methodology for calculating Distributable Earnings may differ from the methodologies employed by other REITs to calculate the same or similar supplemental performance measures, and as a result, the Company’s reported Distributable Earnings may not be comparable to similar measures presented by other REITs.
